

Annual Report 2024

Dear shareholders, colleagues, customers, and partners:

Fiscal year 2024 was a pivotal year for Microsoft. We entered our 50th year as a company and the second year of the AI platform shift. With these milestones, I've found myself reflecting on how Microsoft has remained a consequential company decade after decade in an industry with no franchise value. And I realize that it's because—time and time again, when tech paradigms have shifted—we have seized the opportunity to reinvent ourselves to stay relevant to our customers, our partners, and our employees. And that's what we are doing again today.

Microsoft has been a platform and tools company from the start. We were founded in 1975 with a belief in creating technology that would enable others to create their own. And, nearly 50 years later, this belief remains at the heart of our mission to **empower every person and every organization on the planet to achieve more**.

This year, we moved from talking about AI to helping our customers translate it into real outcomes—one person, one organization, one institution, and one country at a time. We have made remarkable progress on this front across every industry. For example:

- Coles is generating 1.6 billion daily AI predictions across 850 Australian stores, ensuring every shopper finds what they need.
- Unilever is performing thousands of simulations with AI in the time it would take to run tens of laboratory experiments, as it accelerates its product development.
- Developers at Itaú, Brazil's largest private bank, are coding more efficiently using our AI pair programmer, GitHub Copilot.
- Khan Academy is making tutoring more accessible for students and helping teachers plan more creative lessons, using our small language model Phi.
- Aquafarmers in Indonesia are improving their yields, thanks to an app built with the Azure OpenAI Service, as well as Azure IoT.
- In Kenya, street vendors now have access to credit for the first time, thanks to M-Kopa, a social enterprise using Azure ML to do its forecasting.
- And enterprise customers and their employees around the world, from Amgen and Disney, to Finastra and Vodafone, are using Microsoft 365 Copilot to become more creative and productive.

Financially, the year was also marked by record performance. We delivered over \$245 billion in annual revenue, up 16 percent year-over-year, and over \$109 billion in operating income, up 24 percent.

Going forward, we are focused on three priorities: First, prioritizing fundamentals, with security above all else. We launched the Secure Future Initiative (SFI) this year, bringing together every part of our organization to advance cybersecurity protection. Second, driving trustworthy AI innovation across our entire portfolio while continuing to scale our cloud business. And, finally, managing our cost structure dynamically to generate durable, long-term operating leverage. All three priorities are critical to our ability to continue thriving as a company as we raise the bar on our operational excellence, with a focus on continuous improvement across everything we do.

AGE OF AI

If we go back 70 years to the beginning of modern computing, our industry has had two dreams: First, can computers understand us instead of us having to understand computers? And second, as we digitize more of the world—including people, places, and things—can computers help us reason, plan, and act more effectively using all that information? Over the past year, we have had breakthroughs on both fronts.

The core underlying force behind these breakthroughs is scaling laws. Just like Moore's Law drove the information revolution, the scaling laws of deep neural networks (DNN) and transformers are driving today's AI revolution. Up until the DNN inflection point, progress in compute was keeping up with Moore's Law—doubling every two years. But we have now started to see progress in AI performance double roughly every six months.

There are three capabilities coming together because of these scaling laws. First, we have a new natural user interface that is multimodal. It supports speech, images, and videos—both as input and output. We have memory that retains important context, recalling both our personal knowledge and data across devices, apps, and the web. And, finally, we have new

reasoning and planning capabilities that help us understand complex context, complete end-to-end tasks on our behalf, and reduce our cognitive load.

This new world is being defined by a rich tapestry of AI agents, which can take action on our behalf, including personal agents across work and life, business process agents, and cross-organizational ones. These agents will be able to work in concert as a new input to help make small businesses more productive, make multinationals more competitive, make the public sector more efficient, and improve health and education outcomes broadly.

Microsoft has built three leading platforms to help our customers maximize their opportunity in this emerging agentic era: Copilot, which you can think of as the new UI for AI—the human interface for this agentic world; the Copilot stack, which brings together infrastructure, data, and app services to help customers build their own copilots and agents for their own business processes; and a new category of Copilot devices that are purpose-built for this new era, including the Copilot+ PCs we introduced this year.

OUR OPPORTUNITY

The innovation we have driven over the past year matters only if we translate it into enduring value for our customers. That's why, across our tech stack, we are focused on helping people and organizations realize the benefits of AI.

Infrastructure

This year, we expanded our cloud and AI capacity, announcing new investments across five continents. These are long-term assets to drive new growth for the next decade and beyond, and ensure communities around the world have access to the compute they need to drive economic growth in this new era.

Our cloud now also offers top performance for AI training and inference and the most diverse selection of AI accelerators, including the latest from AMD and NVIDIA, as well as our own first-party silicon, Azure Maia, which we introduced last November.

More broadly, we continued to see sustained revenue growth from migrations as customers turn to Azure. Azure Arc is helping customers streamline their transition, as they secure, develop, and operate workloads with Azure services anywhere. We have 36,000 Arc customers, up 90 percent year-over-year. And we remain the hyperscale cloud of choice for SAP and Oracle workloads.

Data & AI

AI models are now key building blocks for every application. And with Azure AI, we are building out the app server for the AI age, providing access to the most diverse selection of models to meet customers' unique cost, latency, and design considerations. We offer leading frontier models, thanks to our strategic partnership with OpenAI. With Phi-3, which we announced in April, we offer a family of powerful, small language models. And, with Models as a service, we provide API access to third-party models, including the latest from Cohere, Meta, and Mistral. In total, we have over 60,000 Azure AI customers, up nearly 60 percent year-over-year. This year, we also announced a partnership with G42, which will run its AI applications and services on our cloud, as we collaborate to bring our latest AI technologies to the United Arab Emirates and other countries.

AI does not get created without data. At the data layer, we are fundamentally rethinking what it means to be an analytics database or an operational data store in the world of AI. Our Microsoft Intelligent Data Platform provides customers with the broadest capabilities spanning databases, analytics, business intelligence, and governance—along with seamless integration with all our AI services. And Microsoft Fabric, our AI-powered, next-generation data platform we made generally available this year, now has over 14,000 paid customers who can go from data, to insights, to action—all within the same unified SaaS solution.

Digital & app innovation

From GitHub to Visual Studio, we have the most comprehensive developer tools. GitHub Copilot had a breakout year, as it became standard issue for developers in every industry. We now have more than 1.8 million paid subscribers and over 77,000 enterprise customers, up 180 percent year-over-year. They are realizing productivity gains of up to 55 percent while

staying in their flow and bringing the joy back to coding. This year, we also introduced Copilot Workspace, a Copilot-native developer environment, which helps any developer go from idea, to code, to software—all in natural language.

We are also integrating generative AI across Power Platform, enabling anyone to use natural language to create apps, automate workflows, or build a website. In total, we now have 48 million monthly active users of Power Platform, up 40 percent year-over-year.

Modern work

Microsoft 365 Copilot is becoming a daily habit for knowledge workers, transforming their work, workflow, and work artifacts. Adoption has been faster than any other new Microsoft 365 suite. And employees at nearly 60 percent of the Fortune 500 now use Copilot to complete tasks faster, hold more effective meetings, and automate business workflows and processes. In fact, internal and external studies show as much as a 70 percent improvement in productivity using generative AI for specific work tasks. And early Microsoft 365 Copilot users were 29 percent faster in a series of general tasks like searching, writing, and summarizing.

And we're going further, bringing the Web plus Work plus Pages together as the new AI design system for knowledge work. With Pages, which we just announced last month, you can take any information from the web or your work and turn it into a multiplayer, AI-powered canvas. You can ideate with AI and then easily share what you create for collaboration with other people.

And with Copilot Studio, customers can extend Copilot with agents and build their own agents that proactively respond to data and events from their own first- and third-party business data. To date, 50,000 organizations have used it. And, just this week, we announced new capabilities that will make it possible for customers to build autonomous agents using Copilot Studio.

Microsoft Teams remains essential to how hundreds of millions of people meet, call, chat, collaborate, and do business. This year, we rolled out to all customers a new version that is up to two times faster while using 50 percent less memory. And Teams Premium surpassed 3 million seats, up nearly 400 percent year-over-year, as organizations chose it for advanced features like end-to-end encryption and real-time translation.

Business applications

We're using this AI moment to redefine our role in business applications, too. Dynamics 365 once again took share, as organizations use our AI-powered apps to transform their marketing, sales, service, finance, and supply chain functions.

And we are expanding our total addressable market by integrating Copilot into third-party systems as well. Our new Dynamics 365 Contact Center infuses generative AI throughout the contact center workflow in a customer's existing CRM.

We are also extending Copilot to specific industries, including healthcare. With DAX Copilot, more than 400 healthcare organizations are increasing physician productivity and reducing burnout. On average, clinicians save more than five minutes per patient encounter. And 77 percent say it also improves documentation quality.

Security

As I mentioned earlier, security underpins every layer of our tech stack. We are doubling down on our Secure Future Initiative, as we implement our principles of secure by design, secure by default, and secure operations. And we are focused on making continuous progress across the six pillars of the initiative: protect tenants and isolate production systems; protect identities and secrets; protect networks; protect engineering systems; monitor and detect threats; and accelerate response and remediation. As part of this commitment, all Microsoft employees now have security as a "core priority," holding each one of us accountable for building secure products and services.

We are continuously applying what we are learning and translating it into security innovation for our customers. A great example is Copilot for Security, which we made generally available this year. It brings together LLMs with domain-specific

skills informed by our threat intelligence and 78 trillion daily security signals to provide security teams with actionable insights.

Devices & creativity

This year, we introduced an entirely new category of Windows PCs engineered to unleash the power of distributed AI across the cloud and edge. Copilot+ PCs are the fastest, most AI-ready Windows PCs ever built. They include a new system architecture designed to deliver best-in-class performance and breakthrough AI experiences. And we are working across our entire ecosystem to bring these to life, including with AMD, Intel, and Qualcomm, along with our OEM partners.

Professional social network

LinkedIn continues to see accelerated member growth and record engagement. We surpassed 1 billion members for the first time this year, as we combine our unique data with this new generation of AI to transform how people learn, sell, and get hired. LinkedIn Marketing Solutions continues to be a leader in B2B digital advertising, helping companies deliver the right message, to the right audience, on a safe and trusted platform. And when it comes to our subscription businesses, Premium signups increased 51 percent, and we are adding even more value to our members and customers with new AI tools and skilling opportunities.

Search, ads, and news

With Copilot, we're taking the first steps toward creating an AI companion, one that's always by your side, helping you feel smarter and more supported through natural conversations. The refreshed Copilot app we introduced earlier this month delivers a more intuitive design with more digestible, speedy, and fluent answers. It now adapts to you with a warm tone and a distinct style, providing not only information but encouragement, feedback, and advice as you navigate life's everyday challenges—no matter how big or small. And we're adding advanced capabilities like Voice and Vision that make it both more useful and more natural.

We also continue to apply generative AI to pioneer new approaches to how people search and browse. Microsoft Bing and Edge both took share again this year. And we introduced Copilot Pro, providing access to the latest models for quick answers and higher-quality image creation, and access to Copilot for Microsoft 365 Personal and Family subscribers.

Thousands of news and entertainment publishers trust us to reach new audiences with Microsoft Start. And we are also helping advertisers increase their ROI. Copilot in Microsoft Ad Platform helps marketers create campaigns and troubleshoot using natural language.

Gaming

We are bringing great games to more people on more devices. With our acquisition of Activision Blizzard King, which closed October 2023, we've added hundreds of millions of players to our ecosystem. We now have 20 franchises that have generated over \$1 billion in lifetime revenue—from *Candy Crush*, *Diablo*, and *Halo*, to *Warcraft*, *Elder Scrolls*, and *Gears of War*. And with Xbox cloud gaming, we continue to innovate to offer players more ways to experience the games they love—where, when, and how they want. Finally, we brought four of our fan-favorite titles to Nintendo Switch and Sony PlayStation for the first time, as we continue to extend our content to new platforms.

OUR MISSION

Although we have made outstanding progress over the past year, we cannot take our permission to innovate—let alone operate—for granted. It is something we must earn.

We always say Microsoft will do well only if the world around us does well. And that's why we are focused on four enduring commitments. They keep us grounded, serving as a guide as we make decisions, pushing us to ask critical questions to ensure the technology we create benefits everyone on the planet, as well as the planet itself.

How can we expand opportunity?

We are democratizing access to AI and the skills needed to harness its potential, ensuring that every person, organization, and community can benefit from the opportunities AI brings.

This year, we partnered with 375,000 nonprofits globally, providing \$4.7 billion in donated and discounted technology—to help them build capacity, drive efficiencies, innovate, and increase their impact as they take on the world's greatest challenges. Together with our partners, we also made significant strides in skilling. We have trained and certified 14.1 million people across 202 countries in digital skills as of June 2024. Over 80 percent of the learners were from groups furthest from opportunity in the digital economy.

And our work doesn't stop there. We must do more to accelerate the equitable adoption of AI and narrow the digital divide. That's why we've launched new AI skilling initiatives in partnership with governments, educational institutions, industry, and civil society—to help millions of people learn to use generative AI, develop AI tools, and lead AI adoption. This includes people from underserved communities, with a focus on young people, women, rural communities, and the Global South, as well as employees of social impact organizations.

How can we earn trust?

We recognize that trust is earned, not given. And we remain committed to earning trust every day, spanning cybersecurity, trustworthy AI, privacy, and digital safety.

Our Secure Future Initiative advances how we design, build, test, and operate our technology to ensure we deliver solutions that meet the highest possible standard of security. Our first SFI Progress Report highlights updates spanning culture, governance, technology, and operations, but we recognize that our work on security is never complete. We must and will do more. Our promise is to continually learn, improve, and adapt to the evolving needs of an increasingly complex security landscape.

We are focused on building AI that is trustworthy, meaning that it is secure, safe, and private. Our responsible AI practices, grounded in our foundational AI principles, help ensure we do this from the beginning. And we're building on this commitment by introducing new product capabilities across our tech stack, ensuring that both our customers and developers are safeguarded at every level. Ultimately, these commitments and capabilities are key to fulfilling our mission. The world is looking to us to help defend and protect them, and we take that responsibility seriously.

In May, we published our first AI Transparency Report, which outlines how we build generative applications responsibly and support our customers. We also released Goals and Governance: Goals and Lessons for AI, which draws lessons from other globally governed technologies like civil aviation and nuclear power. Through our Accelerating Foundation Models Research program, we've made grants to hundreds of projects in AI safety and alignment research, AI-driven scientific discovery, and beneficial applications of AI. And we launched our Global Perspectives Responsible AI Fellowship program, designed to center the voices of AI experts from the Global South and enable us to better understand AI's impact on developing countries.

As we drive AI innovation, we continue to respond to a changing privacy landscape. We provide tools to help our customers protect their privacy and control their data, and we have published several resources outlining our approach to privacy and AI for our consumer, commercial, and public sector customers.

Finally, we continue our work to create safe experiences online and protect customers from illegal and harmful content and conduct. To bolster our efforts to prevent child sexual exploitation and abuse risks, we have made new commitments to safety by design in our AI services, joined the Tech Coalition's Lantern Program, and proposed concrete actions that US policymakers can take to protect the public through regulatory and policy measures.

How can we protect fundamental rights?

We are committed to protecting fundamental rights—extending the benefits of technology while mitigating its potential harms. For us, this means promoting responsible business practices, expanding connectivity and accessibility, protecting democracy, and advancing a fair and inclusive society.

Over the past year, as regulators increasingly required greater transparency and process consistency across corporate supply chains and human rights efforts, we ensured compliance with reporting and due diligence directives. Going forward, we'll continue to respect global human rights and laws and take steps to mitigate the impact of our operations and our technology on the people in our value chain.

As we build and deploy more AI solutions, connectivity and accessibility are foundational. Since 2017, we've extended access to affordable high-speed internet to over 100 million people, including nearly 40 million in Africa. And we remain focused on building inclusive, accessible AI that empowers people across the spectrum of disability.

More than 4 billion people will vote this year in their respective elections, making it the biggest election year in history. At the Munich Security Conference in February, we came together with others across the tech sector and pledged to help prevent deceptive AI content from interfering with global elections. As part of this pledge, we have worked to empower campaigns, candidates, election officials, and voters to understand the risks of deceptive AI in elections and to take steps to protect themselves and democracies. To date, we've conducted deepfake trainings in over 20 countries. And our corresponding public awareness campaign has reached over 355 million people.

Lastly, we continued investing in both strategic national partnerships and community-based projects that leverage data and insights to enable changes that advance racial equity and fairness in the criminal legal system.

How can we advance sustainability?

Finally, we are on a journey to build a more sustainable future, from addressing our own environmental footprint to empowering our customers and the world with the technology needed to meet the climate challenge. Over the past year, we have seen how AI can catalyze environmental progress in remarkable ways—from increasing the capacity of transmission lines to deliver renewable power, to the discovery of new materials to support energy production and storage, to empowering the workforce with sustainability skills.

But we also recognize the resource intensity of the infrastructure needed to yield these benefits, which is why we're advancing the sustainability of AI, from design to construction to operations, all while working to improve the efficiency of these technologies. We're also investing in innovation through Microsoft's Climate Innovation Fund and our AI for Good Lab, advancing research and advocating for policies that can drive global impact.

In our latest Environmental Sustainability Report, we shared progress toward our 2030 commitments. We're on track in several areas. Where we're not yet on track, we're mobilizing to accelerate our progress toward becoming carbon negative, water positive, and zero waste, as well as to protect and preserve ecosystems.

When it comes to our carbon footprint, we continue to support clean electricity infrastructure through long-term investments to bring more power onto the grids where we operate. Since setting our carbon negative target, we have contracted over 34 gigawatts of renewable energy, including projects in 24 countries.

In our efforts to become water positive, we provided more than 1.5 million people with access to clean water and sanitation, achieving our water access target.

Our journey to zero waste includes reducing waste at our campuses and datacenters and advancing circularity for cloud hardware, packaging, and devices. Our most recent report showed we had a reuse and recycle rate of 89.4 percent for servers and components across all cloud hardware.

Finally, AI gives new opportunity for ecosystem and biodiversity management with solutions like AI-assisted bioacoustics. And we're expanding collaboration with local communities to build and operate datacenters in ways that address local challenges and create greater benefits. This work is guided by our Sustainability Standards for new construction and our Datacenter Community Pledge.

Learn more about our progress and learnings as we pursue our commitments in our annual Impact Summary.

OUR CULTURE

Just as our culture has been critical in getting us to this point, it will be critical to our success going forward. At Microsoft, we think of our culture as being both input and output. To pursue new concepts, we need new capability. To build new

capability, we need a culture that allows us to grow that capability long before it is conventional wisdom. For us, that means constantly exercising our growth mindset and confronting our fixed mindset—each one of us, every day. It is the only way we will succeed.

Our growth mindset culture helps us in our continuous pursuit of high performance. It doesn't matter what we said about our culture 10 years ago or even last year if we aren't practicing it today—by anticipating the unmet and unarticulated needs of customers; by working together as One Microsoft to deliver the best end-to-end solutions and services; and by actively seeking diversity and embracing inclusion—to ensure our workforce represents the planet we serve and the products we build always meet our customers' needs. In our latest Diversity & Inclusion Report, we share the ways our longstanding commitment to diversity and inclusion endures, and what we're learning as we continue to hire, develop, and grow a global workforce that best supports each other and our customers. This is how we thrive—as individuals, as teams, and as an organization. And, when we thrive, we can help our customers and the world thrive too.

Giving also remains core to our culture. This year, more than 106,000 employees gave \$250 million (including company match) to nearly 35,000 nonprofits in 111 countries. And our employees volunteered over 1 million hours to causes they care about. I am deeply grateful for my colleagues' dedication to making a difference. Together, we can continue to empower everyone around the world.

**

In closing, this is a consequential time for our company, our industry, and the world. Ultimately, our mission requires that we translate technology into empowerment for everyone, into real-world impact. At the end of the day, that's what really matters.

Nearly two years later, I can't stop thinking about the Indian farmer I met in January 2023. He was able to apply for complex government farm subsidies using just his voice, thanks to an app built with GPT 3.5. It was remarkable. A frontier model developed on the West Coast of the US just months earlier was being used to directly improve the lives of rural farmers on the other side of the globe.

That rate of diffusion was unlike anything I had seen in my career. And the pace has only increased. Earlier this year, I was in Thailand, where I met developers using Phi-3 to optimize their operations just days after the small language model was released.

To me, that represents the true democratization of expertise. Where the internet era put information at our fingertips, AI is putting expertise at our fingertips. Impact like this is why we are in this industry, and it is what gives all of us at Microsoft deep meaning in our work.

It is why we are investing in our fundamentals, in our people, and in continued innovation—so that we can help others achieve more for the long term.

It is not an exaggeration to say that what each of us does right now with the unique opportunity we have been given will shape the future. And I look forward to seeing how all of us use Microsoft as a platform to make a difference—one customer, one community, one country at a time.

Satya Nadella
Chairman and Chief Executive Officer

ISSUER PURCHASES OF EQUITY SECURITIES, DIVIDENDS, AND STOCK PERFORMANCE

MARKET AND STOCKHOLDERS

Our common stock is traded on the NASDAQ Stock Market under the symbol MSFT. On July 25, 2024, there were 81,346 registered holders of record of our common stock.

SHARE REPURCHASES AND DIVIDENDS

Share Repurchases

On September 18, 2019, our Board of Directors approved a share repurchase program authorizing up to \$40.0 billion in share repurchases. This share repurchase program commenced in February 2020 and was completed in November 2021.

On September 14, 2021, our Board of Directors approved a share repurchase program authorizing up to \$60.0 billion in share repurchases. This share repurchase program commenced in November 2021, following completion of the program approved on September 18, 2019, has no expiration date, and may be terminated at any time. As of June 30, 2024, \$10.3 billion remained of this \$60.0 billion share repurchase program.

We repurchased the following shares of common stock under the share repurchase programs:

(In millions)	Shares	Amount	Shares	Amount	Shares	Amount
Year Ended June 30,	2024		2023		2022	
First Quarter	11	\$ 3,560	17	\$ 4,600	21	\$ 6,200
Second Quarter	7	2,800	20	4,600	20	6,233
Third Quarter	7	2,800	18	4,600	26	7,800
Fourth Quarter	7	2,800	14	4,600	28	7,800
Total	32	\$ 11,960	69	\$ 18,400	95	\$ 28,033

All repurchases were made using cash resources. Shares repurchased during the first quarter of fiscal year 2022 were under the share repurchase program approved on September 18, 2019. Shares repurchased during the second quarter of fiscal year 2022 were under the share repurchase programs approved on September 18, 2019 and September 14, 2021. All other shares repurchased were under the share repurchase program approved on September 14, 2021. The above table excludes shares repurchased to settle employee tax withholding related to the vesting of stock awards of \$5.3 billion, \$3.8 billion, and \$4.7 billion for fiscal years 2024, 2023, and 2022, respectively.

Dividends

Our Board of Directors declared the following dividends:

Declaration Date	Record Date	Payment Date	Dividend Per Share	Amount
Fiscal Year 2024				(In millions)
September 19, 2023	November 16, 2023	December 14, 2023	\$ 0.75	\$ 5,574
November 28, 2023	February 15, 2024	March 14, 2024	0.75	5,573
March 12, 2024	May 16, 2024	June 13, 2024	0.75	5,574
June 12, 2024	August 15, 2024	September 12, 2024	0.75	5,575
Total			\$ 3.00	\$ 22,296
Fiscal Year 2023				
September 20, 2022	November 17, 2022	December 8, 2022	\$ 0.68	\$ 5,066
November 29, 2022	February 16, 2023	March 9, 2023	0.68	5,059
March 14, 2023	May 18, 2023	June 8, 2023	0.68	5,054
June 13, 2023	August 17, 2023	September 14, 2023	0.68	5,051
Total			\$ 2.72	\$ 20,230

The dividend declared on June 12, 2024 was included in other current liabilities as of June 30, 2024.

STOCK PERFORMANCE

COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN*

Among Microsoft Corporation, the S&P 500 Index
and the NASDAQ Computer Index

	6/19	6/20	6/21	6/22	6/23	6/24
Microsoft Corporation	100.00	153.80	206.72	197.60	264.54	349.91
S&P 500	100.00	107.51	151.36	135.29	161.80	201.54
NASDAQ Computer	100.00	147.90	222.50	173.91	228.85	331.25

* \$100 invested on 6/30/19 in stock or index, including reinvestment of dividends. Fiscal year ending June 30.

More Personal Computing

Metrics related to our More Personal Computing segment assess the performance of key lines of business within this segment. These metrics provide strategic product insights which allow us to assess the performance across our commercial and consumer businesses. As we have diversity of target audiences and sales motions within the Windows business, we monitor metrics that are reflective of those varying motions.

Windows OEM revenue growth	Revenue from sales of Windows Pro and non-Pro licenses sold through the OEM channel
Windows Commercial products and cloud services revenue growth	Revenue from Windows Commercial products and cloud services, comprising volume licensing of the Windows operating system, Windows cloud services, and other Windows commercial offerings
Devices revenue growth	Revenue from Devices, including Surface, HoloLens, and PC accessories
Xbox content and services revenue growth	Revenue from Xbox content and services, comprising first-party content (such as Activision Blizzard) and third-party content, including games and in-game content; Xbox Game Pass and other subscriptions; Xbox Cloud Gaming; advertising; third-party disc royalties; and other cloud services
Search and news advertising revenue (ex TAC) growth	Revenue from search and news advertising excluding traffic acquisition costs ("TAC") paid to Bing Ads network publishers and news partners

SUMMARY RESULTS OF OPERATIONS

(In millions, except percentages and per share amounts)	2024	2023	Percentage Change
Revenue	\$ 245,122	\$ 211,915	16%
Gross margin	171,008	146,052	17%
Operating income	109,433	88,523	24%
Net income	88,136	72,361	22%
Diluted earnings per share	11.80	9.68	22%
Adjusted gross margin (non-GAAP)	171,008	146,204	17%
Adjusted operating income (non-GAAP)	109,433	89,694	22%
Adjusted net income (non-GAAP)	88,136	73,307	20%
Adjusted diluted earnings per share (non-GAAP)	11.80	9.81	20%

Adjusted gross margin, operating income, net income, and diluted earnings per share ("EPS") are non-GAAP financial measures. Prior year non-GAAP financial measures exclude the impact of a \$1.2 billion charge in the second quarter of fiscal year 2023 ("Q2 charge"), which included employee severance expenses, impairment charges resulting from changes to our hardware portfolio, and costs related to lease consolidation activities. Refer to the Non-GAAP Financial Measures section below for a reconciliation of our financial results reported in accordance with GAAP to non-GAAP financial results.

Fiscal Year 2024 Compared with Fiscal Year 2023

Revenue increased \$33.2 billion or 16% driven by growth across each of our segments. Intelligent Cloud revenue increased driven by Azure. Productivity and Business Processes revenue increased driven by Office 365 Commercial. More Personal Computing revenue increased driven by Gaming.

Cost of revenue increased \$8.3 billion or 13% driven by growth in Microsoft Cloud and Gaming, offset in part by a decline in Devices.

Gross margin increased \$25.0 billion or 17% driven by growth across each of our segments.

- Gross margin percentage increased slightly. Excluding the impact of the change in accounting estimate for the useful lives of our server and network equipment, gross margin percentage increased 2 points driven by improvement in More Personal Computing.
- Microsoft Cloud gross margin percentage decreased slightly to 71%. Excluding the impact of the change in accounting estimate, Microsoft Cloud gross margin percentage increased slightly driven by improvements in Azure and Office 365 Commercial, inclusive of scaling our AI infrastructure, offset in part by sales mix shift to Azure.

Operating expenses increased \$4.0 billion or 7% driven by Gaming, with 7 points of growth from the Activision Blizzard acquisition, and investments in cloud engineering, offset in part by the prior year Q2 charge.

Operating income increased \$20.9 billion or 24% driven by growth across each of our segments.

Prior year gross margin, operating income, net income, and diluted EPS were negatively impacted by the Q2 charge, which resulted in decreases of \$152 million, \$1.2 billion, \$946 million, and \$0.13, respectively.

SEGMENT RESULTS OF OPERATIONS

(In millions, except percentages)	2024	2023	Percentage Change
Revenue			
Productivity and Business Processes	\$ 77,728	\$ 69,274	12%
Intelligent Cloud	105,362	87,907	20%
More Personal Computing	62,032	54,734	13%
Total	<u>\$ 245,122</u>	<u>\$ 211,915</u>	16%
Operating Income			
Productivity and Business Processes	\$ 40,540	\$ 34,189	19%
Intelligent Cloud	49,584	37,884	31%
More Personal Computing	19,309	16,450	17%
Total	<u>\$ 109,433</u>	<u>\$ 88,523</u>	24%

Reportable Segments

Fiscal Year 2024 Compared with Fiscal Year 2023

Productivity and Business Processes

Revenue increased \$8.5 billion or 12%.

- Office Commercial products and cloud services revenue increased \$5.8 billion or 14%. Office 365 Commercial revenue grew 16% with seat growth of 7%, driven by small and medium business and frontline worker offerings, as well as growth in revenue per user. Office Commercial products revenue declined 16% driven by continued customer shift to cloud offerings.
- Office Consumer products and cloud services revenue increased \$237 million or 4%. Microsoft 365 Consumer subscribers grew 10% to 82.5 million.
- LinkedIn revenue increased \$1.4 billion or 9% driven by growth across all lines of business – Talent Solutions, Premium Subscriptions, Marketing Solutions, and Sales Solutions.
- Dynamics products and cloud services revenue increased \$1.0 billion or 19% driven by Dynamics 365. Dynamics 365 revenue grew 24% driven by growth across all workloads.

Operating income increased \$6.4 billion or 19%.

- Gross margin increased \$6.5 billion or 12% driven by growth in Office 365 Commercial. Gross margin percentage decreased slightly. Excluding the impact of the change in accounting estimate, gross margin percentage increased slightly driven by improvement in Office 365 Commercial.
- Operating expenses increased \$159 million or 1%.

Intelligent Cloud

Revenue increased \$17.5 billion or 20%.

- Server products and cloud services revenue increased \$17.8 billion or 22% driven by Azure and other cloud services. Azure and other cloud services revenue grew 30% driven by growth in our consumption-based services. Server products revenue increased 3% driven by continued demand for our hybrid solutions, including Windows Server and SQL Server running in multi-cloud environments.
- Enterprise and partner services revenue decreased \$306 million or 4% driven by declines in Enterprise Support Services and Industry Solutions.

Operating income increased \$11.7 billion or 31%.

- Gross margin increased \$11.6 billion or 19% driven by growth in Azure. Gross margin percentage decreased slightly. Excluding the impact of the change in accounting estimate, gross margin percentage increased slightly primarily driven by improvement in Azure, inclusive of scaling our AI infrastructure, offset in part by sales mix shift to Azure.
- Operating expenses decreased slightly primarily driven by the prior year Q2 charge, offset in part by investments in Azure.

More Personal Computing

Revenue increased \$7.3 billion or 13%.

- Windows revenue increased \$1.7 billion or 8% driven by growth in Windows Commercial and Windows OEM. Windows Commercial products and cloud services revenue increased 11% driven by demand for Microsoft 365. Windows OEM revenue increased 7%.
- Gaming revenue increased \$6.0 billion or 39% driven by growth in Xbox content and services. Xbox content and services revenue increased 50% driven by 44 points of net impact from the Activision Blizzard acquisition. Xbox hardware revenue decreased 13% driven by lower volume of consoles sold.
- Search and news advertising revenue increased \$418 million or 3%. Search and news advertising revenue excluding traffic acquisition costs increased 12% driven by higher search volume.
- Devices revenue decreased \$815 million or 15%.

Operating income increased \$2.9 billion or 17%.

- Gross margin increased \$6.8 billion or 23% driven by growth in Gaming, with 10 points of net impact from the Activision Blizzard acquisition, as well as growth in Windows. Gross margin percentage increased driven by sales mix shift to higher margin businesses and improvement in Devices.
- Operating expenses increased \$3.9 billion or 31% driven by Gaming, with 34 points of growth from the Activision Blizzard acquisition.

OPERATING EXPENSES

Research and Development

(In millions, except percentages)	2024	2023	Percentage Change
Research and development	\$ 29,510	\$ 27,195	9%
As a percent of revenue	12%	13%	(1)ppt

Research and development expenses include payroll, employee benefits, stock-based compensation expense, and other headcount-related expenses associated with product development. Research and development expenses also include third-party development and programming costs and the amortization of purchased software code and services content.

Fiscal Year 2024 Compared with Fiscal Year 2023

Research and development expenses increased \$2.3 billion or 9% driven by Gaming, with 7 points of growth from the Activision Blizzard acquisition, and investments in cloud engineering.

Sales and Marketing

(In millions, except percentages)	2024	2023	Percentage Change
Sales and marketing	\$ 24,456	\$ 22,759	7%
As a percent of revenue	10%	11%	(1)ppt

Sales and marketing expenses include payroll, employee benefits, stock-based compensation expense, and other headcount-related expenses associated with sales and marketing personnel, and the costs of advertising, promotions, trade shows, seminars, and other programs.

Fiscal Year 2024 Compared with Fiscal Year 2023

Sales and marketing expenses increased \$1.7 billion or 7% driven by Gaming, with 6 points of growth from the Activision Blizzard acquisition.

General and Administrative

(In millions, except percentages)	2024	2023	Percentage Change
General and administrative	\$ 7,609	\$ 7,575	0%
As a percent of revenue	3%	4%	(1)ppt

General and administrative expenses include payroll, employee benefits, stock-based compensation expense, employee severance expense incurred as part of a corporate program, and other headcount-related expenses associated with finance, legal, facilities, certain human resources and other administrative personnel, certain taxes, and legal and other administrative fees.

Fiscal Year 2024 Compared with Fiscal Year 2023

General and administrative expenses increased slightly as growth from the Activision Blizzard acquisition was offset in part by the prior year Q2 charge.

OTHER INCOME (EXPENSE), NET

The components of other income (expense), net were as follows:

(In millions)

Year Ended June 30,	2024	2023
Interest and dividends income	\$ 3,157	\$ 2,994
Interest expense	(2,935)	(1,968)
Net recognized gains (losses) on investments	(118)	260
Net losses on derivatives	(187)	(456)
Net gains (losses) on foreign currency remeasurements	(244)	181
Other, net	(1,319)	(223)
Total	<u>\$ (1,646)</u>	<u>\$ 788</u>

We use derivative instruments to manage risks related to foreign currencies, interest rates, equity prices, and credit; to enhance investment returns; and to facilitate portfolio diversification. Gains and losses from changes in fair values of derivatives that are not designated as hedging instruments are primarily recognized in other income (expense), net.

Fiscal Year 2024 Compared with Fiscal Year 2023

Interest and dividends income increased due to higher yields. Interest expense increased due to the issuance of commercial paper. Net recognized losses on investments increased primarily due to higher equity impairments and lower gains on equity investments. Net losses on derivatives decreased primarily due to lower losses on equity derivatives. Other, net primarily reflects net recognized losses on equity method investments.

INCOME TAXES

Effective Tax Rate

Our effective tax rate for fiscal years 2024 and 2023 was 18% and 19%, respectively. The decrease in our effective tax rate was primarily due to tax benefits from tax law changes, including the impact from the issuance of Notice 2023-55 and Notice 2023-80 by the Internal Revenue Service ("IRS") and U.S. Treasury Department. Notice 2023-55, issued in the first quarter of fiscal year 2024, delayed the effective date of final foreign tax credit regulations to fiscal year 2024 for Microsoft. Notice 2023-80, issued in the second quarter of fiscal year 2024, further delayed the effective date of final foreign tax credit regulations indefinitely.

Our effective tax rate was lower than the U.S. federal statutory rate, primarily due to earnings taxed at lower rates in foreign jurisdictions resulting from producing and distributing our products and services through our foreign regional operations center in Ireland.

The mix of income before income taxes between the U.S. and foreign countries impacted our effective tax rate as a result of the geographic distribution of, and customer demand for, our products and services. In fiscal year 2024, our U.S. income before income taxes was \$62.9 billion and our foreign income before income taxes was \$44.9 billion. In fiscal year 2023, our U.S. income before income taxes was \$52.9 billion and our foreign income before income taxes was \$36.4 billion.

The Organisation for Economic Co-operation and Development ("OECD") published its model rules "Tax Challenges Arising From the Digitalisation of the Economy – Global Anti-Base Erosion Model Rules (Pillar Two)" which established a global minimum corporate tax rate of 15% for certain multinational enterprises. Many countries have implemented or are in the process of implementing the Pillar Two legislation, which will apply to Microsoft beginning in fiscal year 2025. While we do not currently estimate a material impact to our consolidated financial statements, we continue to monitor the impact as countries implement legislation and the OECD provides additional guidance.

Uncertain Tax Positions

We remain under audit by the IRS for tax years 2014 to 2017. With respect to the audit for tax years 2004 to 2013, on September 26, 2023, we received Notices of Proposed Adjustment (“NOPAs”) from the IRS. The primary issues in the NOPAs relate to intercompany transfer pricing. In the NOPAs, the IRS is seeking an additional tax payment of \$28.9 billion plus penalties and interest. As of June 30, 2024, we believe our allowances for income tax contingencies are adequate. We disagree with the proposed adjustments and will vigorously contest the NOPAs through the IRS’s administrative appeals office and, if necessary, judicial proceedings. We do not expect a final resolution of these issues in the next 12 months. Based on the information currently available, we do not anticipate a significant increase or decrease to our income tax contingencies for these issues within the next 12 months.

We are subject to income tax in many jurisdictions outside the U.S. Our operations in certain jurisdictions remain subject to examination for tax years 1996 to 2023, some of which are currently under audit by local tax authorities. The resolution of each of these audits is not expected to be material to our consolidated financial statements.

NON-GAAP FINANCIAL MEASURES

Adjusted gross margin, operating income, net income, and diluted EPS are non-GAAP financial measures. Prior year non-GAAP financial measures exclude the impact of the Q2 charge, which includes employee severance expenses, impairment charges resulting from changes to our hardware portfolio, and costs related to lease consolidation activities. We believe these non-GAAP measures aid investors by providing additional insight into our operational performance and help clarify trends affecting our business. For comparability of reporting, management considers non-GAAP measures in conjunction with GAAP financial results in evaluating business performance. These non-GAAP financial measures presented should not be considered a substitute for, or superior to, the measures of financial performance prepared in accordance with GAAP.

The following table reconciles our financial results reported in accordance with GAAP to non-GAAP financial results:

(In millions, except percentages and per share amounts)	2024	2023	Percentage Change
Gross margin	\$ 171,008	\$ 146,052	17%
Severance, hardware-related impairment, and lease consolidation costs	0	152	*
Adjusted gross margin (non-GAAP)	\$ 171,008	\$ 146,204	17%
Operating income	\$ 109,433	\$ 88,523	24%
Severance, hardware-related impairment, and lease consolidation costs	0	1,171	*
Adjusted operating income (non-GAAP)	\$ 109,433	\$ 89,694	22%
Net income	\$ 88,136	\$ 72,361	22%
Severance, hardware-related impairment, and lease consolidation costs	0	946	*
Adjusted net income (non-GAAP)	\$ 88,136	\$ 73,307	20%
Diluted earnings per share	\$ 11.80	\$ 9.68	22%
Severance, hardware-related impairment, and lease consolidation costs	0	0.13	*
Adjusted diluted earnings per share (non-GAAP)	\$ 11.80	\$ 9.81	20%

* Not meaningful.

LIQUIDITY AND CAPITAL RESOURCES

We expect existing cash, cash equivalents, short-term investments, cash flows from operations, and access to capital markets to continue to be sufficient to fund our operating activities and cash commitments for investing and financing activities, such as dividends, share repurchases, debt maturities, material capital expenditures, and the transition tax related to the Tax Cuts and Jobs Act (“TCJA”), for at least the next 12 months and thereafter for the foreseeable future.

Cash, Cash Equivalents, and Investments

Cash, cash equivalents, and short-term investments totaled \$75.5 billion and \$111.3 billion as of June 30, 2024 and 2023, respectively. Equity and other investments were \$14.6 billion and \$9.9 billion as of June 30, 2024 and 2023, respectively. Our short-term investments are primarily intended to facilitate liquidity and capital preservation. They consist predominantly of highly liquid investment-grade fixed-income securities, diversified among industries and individual issuers. The investments are predominantly U.S. dollar-denominated securities, but also include foreign currency-denominated securities to diversify risk. Our fixed-income investments are exposed to interest rate risk and credit risk. The credit risk and average maturity of our fixed-income portfolio are managed to achieve economic returns that correlate to certain fixed-income indices. The settlement risk related to these investments is insignificant given that the short-term investments held are primarily highly liquid investment-grade fixed-income securities.

Valuation

In general, and where applicable, we use quoted prices in active markets for identical assets or liabilities to determine the fair value of our financial instruments. This pricing methodology applies to our Level 1 investments, such as U.S. government securities, common and preferred stock, and mutual funds. If quoted prices in active markets for identical assets or liabilities are not available to determine fair value, then we use quoted prices for similar assets and liabilities or inputs other than the quoted prices that are observable either directly or indirectly. This pricing methodology applies to our Level 2 investments, such as commercial paper, certificates of deposit, U.S. agency securities, foreign government bonds, mortgage- and asset-backed securities, corporate notes and bonds, and municipal securities. Level 3 investments are valued using internally-developed models with unobservable inputs. Assets and liabilities measured at fair value on a recurring basis using unobservable inputs are an immaterial portion of our portfolio.

A majority of our investments are priced by pricing vendors and are generally Level 1 or Level 2 investments as these vendors either provide a quoted market price in an active market or use observable inputs for their pricing without applying significant adjustments. Broker pricing is used mainly when a quoted price is not available, the investment is not priced by our pricing vendors, or when a broker price is more reflective of fair values in the market in which the investment trades. Our broker-priced investments are generally classified as Level 2 investments because the broker prices these investments based on similar assets without applying significant adjustments. In addition, all our broker-priced investments have a sufficient level of trading volume to demonstrate that the fair values used are appropriate for these investments. Our fair value processes include controls that are designed to ensure appropriate fair values are recorded. These controls include model validation, review of key model inputs, analysis of period-over-period fluctuations, and independent recalculation of prices where appropriate.

Cash Flows

Cash from operations increased \$31.0 billion to \$118.5 billion for fiscal year 2024, primarily due to an increase in cash received from customers. Cash used in financing decreased \$6.2 billion to \$37.8 billion for fiscal year 2024, primarily due to a \$5.0 billion decrease in common stock repurchases and a \$3.3 billion increase in proceeds from issuance of debt, net of repayments, offset in part by a \$2.0 billion increase in dividends paid. Cash used in investing increased \$74.3 billion to \$97.0 billion for fiscal year 2024, primarily due to a \$67.5 billion increase in cash used for acquisitions of companies, net of cash acquired, and purchases of intangible and other assets and a \$16.4 billion increase in additions to property and equipment.

Debt Proceeds

We issue debt to take advantage of favorable pricing and liquidity in the debt markets, reflecting our credit rating. The proceeds of these issuances were or will be used for general corporate purposes, which may include, among other things, funding for working capital, capital expenditures, repurchases of capital stock, acquisitions, and repayment of existing debt. Refer to Note 11 – Debt of the Notes to Financial Statements for further discussion.

Unearned Revenue

Unearned revenue comprises mainly unearned revenue related to volume licensing programs, which may include Software Assurance (“SA”) and cloud services. Unearned revenue is generally invoiced annually at the beginning of each contract period for multi-year agreements and recognized ratably over the coverage period. Unearned revenue also includes

payments for other offerings for which we have been paid in advance and earn the revenue when we transfer control of the product or service. Refer to Note 1 – Accounting Policies of the Notes to Financial Statements for further discussion.

The following table outlines the expected future recognition of unearned revenue as of June 30, 2024:

(In millions)

Three Months Ending	
September 30, 2024	\$ 22,529
December 31, 2024	17,664
March 31, 2025	12,076
June 30, 2025	5,313
Thereafter	2,602
Total	<u>\$ 60,184</u>

If our customers choose to license cloud-based versions of our products and services rather than licensing transaction-based products and services, the associated revenue will shift from being recognized at the time of the transaction to being recognized over the subscription period or upon consumption, as applicable. Refer to Note 13 – Unearned Revenue of the Notes to Financial Statements for further discussion.

Material Cash Requirements and Other Obligations

Contractual Obligations

The following table summarizes the payments due by fiscal year for our outstanding contractual obligations as of June 30, 2024:

(In millions)	2025	Thereafter	Total
Long-term debt: ^(a)			
Principal payments	\$ 2,250	\$ 48,971	\$ 51,221
Interest payments	1,618	27,041	28,659
Construction commitments ^(b)	29,892	5,499	35,391
Operating and finance leases, including imputed interest ^(c)	12,250	160,475	172,725
Purchase commitments ^(d)	68,280	3,742	72,022
Total	<u>\$ 114,290</u>	<u>\$ 245,728</u>	<u>\$ 360,018</u>

(a) Refer to Note 11 – Debt of the Notes to Financial Statements.

(b) Refer to Note 7 – Property and Equipment of the Notes to Financial Statements.

(c) Refer to Note 14 – Leases of the Notes to Financial Statements.

(d) Purchase commitments primarily relate to datacenters and include open purchase orders and take-or-pay contracts that are not presented as construction commitments above.

Income Taxes

As a result of the TCJA, we are required to pay a one-time transition tax on deferred foreign income not previously subject to U.S. income tax. Under the TCJA, the transition tax is payable in interest-free installments over eight years, with 8% due in each of the first five years, 15% in year six, 20% in year seven, and 25% in year eight. As of June 30, 2024, we had a remaining transition tax liability of \$7.6 billion, of which \$3.8 billion is short-term and payable in the first quarter of fiscal year 2025.

Share Repurchases

During fiscal years 2024 and 2023, we repurchased 32 million shares and 69 million shares of our common stock for \$12.0 billion and \$18.4 billion, respectively, through our share repurchase program. All repurchases were made using cash resources. As of June 30, 2024, \$10.3 billion remained of our \$60 billion share repurchase program. Refer to Note 16 – Stockholders' Equity of the Notes to Financial Statements for further discussion.

Dividends

During fiscal years 2024 and 2023, our Board of Directors declared dividends totaling \$22.3 billion and \$20.2 billion, respectively. We intend to continue returning capital to shareholders in the form of dividends, subject to declaration by our Board of Directors. Refer to Note 16 – Stockholders' Equity of the Notes to Financial Statements for further discussion.

Other Planned Uses of Capital

We will continue to invest in sales, marketing, product support infrastructure, and existing and advanced areas of technology, as well as acquisitions that align with our business strategy. Additions to property and equipment will continue, including new facilities, datacenters, and computer systems for research and development, sales and marketing, support, and administrative staff. We expect capital expenditures to increase in coming years to support growth in our cloud offerings and our investments in AI infrastructure and training. We have operating and finance leases for datacenters, corporate offices, research and development facilities, Microsoft Experience Centers, and certain equipment. We have not engaged in any related party transactions or arrangements with unconsolidated entities or other persons that are reasonably likely to materially affect liquidity or the availability of capital resources.

RECENT ACCOUNTING GUIDANCE

Refer to Note 1 – Accounting Policies of the Notes to Financial Statements for further discussion.

CRITICAL ACCOUNTING ESTIMATES

Our consolidated financial statements and accompanying notes are prepared in accordance with GAAP. Preparing consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. Critical accounting estimates are those estimates that involve a significant level of estimation uncertainty and could have a material impact on our financial condition or results of operations. We have critical accounting estimates in the areas of revenue recognition, impairment of investment securities, goodwill, research and development costs, legal and other contingencies, income taxes, and business combinations – valuation of intangible assets.

Revenue Recognition

Our contracts with customers often include promises to transfer multiple products and services to a customer. Determining whether products and services are considered distinct performance obligations that should be accounted for separately versus together may require significant judgment. When a cloud-based service includes both on-premises software licenses and cloud services, judgment is required to determine whether the software license is considered distinct and accounted for separately, or not distinct and accounted for together with the cloud service and recognized over time. Certain cloud services, primarily Office 365, depend on a significant level of integration, interdependency, and interrelation between the desktop applications and cloud services, and are accounted for together as one performance obligation. Revenue from Office 365 is recognized ratably over the period in which the cloud services are provided.

Judgment is required to determine the standalone selling price ("SSP") for each distinct performance obligation. We use a single amount to estimate SSP for items that are not sold separately, including on-premises licenses sold with SA or software updates provided at no additional charge. We use a range of amounts to estimate SSP when we sell each of the products and services separately and need to determine whether there is a discount to be allocated based on the relative SSP of the various products and services.

In instances where SSP is not directly observable, such as when we do not sell the product or service separately, we determine the SSP using information that may include market conditions and other observable inputs. We typically have more than one SSP for individual products and services due to the stratification of those products and services by customers and circumstances. In these instances, we may use information such as the size of the customer and geographic region in determining the SSP.

Due to the various benefits from and the nature of our SA program, judgment is required to assess the pattern of delivery, including the exercise pattern of certain benefits across our portfolio of customers.

Our products are generally sold with a right of return, we may provide other credits or incentives, and in certain instances we estimate customer usage of our products and services, which are accounted for as variable consideration when determining the amount of revenue to recognize. Returns and credits are estimated at contract inception and updated at the end of each reporting period if additional information becomes available. Changes to our estimated variable consideration were not material for the periods presented.

Impairment of Investment Securities

We review debt investments quarterly for credit losses and impairment. If the cost of an investment exceeds its fair value, we evaluate, among other factors, general market conditions, credit quality of debt instrument issuers, and the extent to which the fair value is less than cost. This determination requires significant judgment. In making this judgment, we employ a systematic methodology that considers available quantitative and qualitative evidence in evaluating potential impairment of our investments. In addition, we consider specific adverse conditions related to the financial health of, and business outlook for, the investee. If we have plans to sell the security or it is more likely than not that we will be required to sell the security before recovery, then a decline in fair value below cost is recorded as an impairment charge in other income (expense), net and a new cost basis in the investment is established. If market, industry, and/or investee conditions deteriorate, we may incur future impairments.

Equity investments without readily determinable fair values are written down to fair value if a qualitative assessment indicates that the investment is impaired and the fair value of the investment is less than carrying value. We perform a qualitative assessment on a periodic basis. We are required to estimate the fair value of the investment to determine the amount of the impairment loss. Once an investment is determined to be impaired, an impairment charge is recorded in other income (expense), net.

Goodwill

We allocate goodwill to reporting units based on the reporting unit expected to benefit from the business combination. We evaluate our reporting units on an annual basis and, if necessary, reassign goodwill using a relative fair value allocation approach. Goodwill is tested for impairment at the reporting unit level (operating segment or one level below an operating segment) on an annual basis (May 1) and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value. These events or circumstances could include a significant change in the business climate, legal factors, operating performance indicators, competition, or sale or disposition of a significant portion of a reporting unit.

Application of the goodwill impairment test requires judgment, including the identification of reporting units, assignment of assets and liabilities to reporting units, assignment of goodwill to reporting units, and determination of the fair value of each reporting unit. The fair value of each reporting unit is estimated primarily through the use of a discounted cash flow methodology. This analysis requires significant judgments, including estimation of future cash flows, which is dependent on internal forecasts, estimation of the long-term rate of growth for our business, estimation of the useful life over which cash flows will occur, and determination of our weighted average cost of capital.

The estimates used to calculate the fair value of a reporting unit change from year to year based on operating results, market conditions, and other factors. Changes in these estimates and assumptions could materially affect the determination of fair value and goodwill impairment for each reporting unit.

Research and Development Costs

Costs incurred internally in researching and developing a computer software product are charged to expense until technological feasibility has been established for the product. Once technological feasibility is established, software costs are capitalized until the product is available for general release to customers. Judgment is required in determining when technological feasibility of a product is established. We have determined that technological feasibility for our software products is reached after all high-risk development issues have been resolved through coding and testing. Generally, this occurs shortly before the products are released to production. The amortization of these costs is included in cost of revenue over the estimated life of the products.

Legal and Other Contingencies

The outcomes of legal proceedings and claims brought against us are subject to significant uncertainty. An estimated loss from a loss contingency such as a legal proceeding or claim is accrued by a charge to income if it is probable that an asset has been impaired or a liability has been incurred and the amount of the loss can be reasonably estimated. In determining whether a loss should be accrued we evaluate, among other factors, the degree of probability of an unfavorable outcome and the ability to make a reasonable estimate of the amount of loss. Changes in these factors could materially impact our consolidated financial statements.

Income Taxes

The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year, and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in an entity's financial statements or tax returns. We recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Accounting literature also provides guidance on derecognition of income tax assets and liabilities, classification of deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, and income tax disclosures. Judgment is required in assessing the future tax consequences of events that have been recognized in our consolidated financial statements or tax returns. Variations in the actual outcome of these future tax consequences could materially impact our consolidated financial statements.

Business Combinations – Valuation of Intangible Assets

Accounting for business combinations requires significant judgments when allocating the purchase price to the estimated fair values of assets acquired and liabilities assumed at the acquisition date. Determination of fair value involves estimates and assumptions which can be complex, most notably with respect to intangible assets. Critical estimates used in the valuation of intangible assets include, but are not limited to, the amount and timing of projected cash flows, useful lives, and discount rates. While management's estimates of fair value are based on assumptions that are believed to be reasonable, these assumptions are inherently uncertain as they pertain to forward-looking views of our business and market conditions. The judgments made in this valuation process could materially impact our consolidated financial statements.

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

Management is responsible for the preparation of the consolidated financial statements and related information that are presented in this report. The consolidated financial statements, which include amounts based on management's estimates and judgments, have been prepared in conformity with accounting principles generally accepted in the United States of America.

The Company designs and maintains accounting and internal control systems to provide reasonable assurance at reasonable cost that assets are safeguarded against loss from unauthorized use or disposition, and that the financial records are reliable for preparing consolidated financial statements and maintaining accountability for assets. These systems are augmented by written policies, an organizational structure providing division of responsibilities, careful selection and training of qualified personnel, and a program of internal audits.

The Company engaged Deloitte & Touche LLP, an independent registered public accounting firm, to audit and render an opinion on the consolidated financial statements and internal control over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States).

The Board of Directors, through its Audit Committee, consisting solely of independent directors of the Company, meets periodically with management, internal auditors, and our independent registered public accounting firm to ensure that each is meeting its responsibilities and to discuss matters concerning internal controls and financial reporting. Deloitte & Touche LLP and the internal auditors each have full and free access to the Audit Committee.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

RISKS

We are exposed to economic risk from foreign exchange rates, interest rates, credit risk, and equity prices. We use derivatives instruments to manage these risks, however, they may still impact our consolidated financial statements.

Foreign Currencies

Certain forecasted transactions, assets, and liabilities are exposed to foreign currency risk. We monitor our foreign currency exposures daily to maximize the economic effectiveness of our foreign currency positions, including hedges. Principal currency exposures include the Euro, Japanese yen, British pound, Canadian dollar, and Australian dollar.

Interest Rate

Securities held in our fixed-income portfolio are subject to different interest rate risks based on their maturities. We manage the average maturity of the fixed-income portfolio to achieve economic returns that correlate to certain global fixed-income indices.

Credit

Our fixed-income portfolio is diversified and consists primarily of investment-grade securities. We manage credit exposures relative to broad-based indices to facilitate portfolio diversification.

Equity

Securities held in our equity investments portfolio are subject to price risk.

SENSITIVITY ANALYSIS

The following table sets forth the potential loss in future earnings or fair values, including associated derivatives, resulting from hypothetical changes in relevant market rates or prices:

(In millions)

Risk Categories	Hypothetical Change		June 30, 2024	Impact
Foreign currency – Revenue	10% decrease in foreign exchange rates	\$	(9,605)	Earnings
Foreign currency – Investments	10% decrease in foreign exchange rates		(38)	Fair Value
Interest rate	100 basis point increase in U.S. treasury interest rates		(1,343)	Fair Value
Credit	100 basis point increase in credit spreads		(318)	Fair Value
Equity	10% decrease in equity market prices		(1,078)	Earnings

NOTES TO FINANCIAL STATEMENTS

NOTE 1 — ACCOUNTING POLICIES

Accounting Principles

Our consolidated financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

We have recast certain prior period amounts to conform to the current period presentation. The recast of these prior period amounts had no impact on our consolidated balance sheets, consolidated income statements, or consolidated cash flows statements.

Principles of Consolidation

The consolidated financial statements include the accounts of Microsoft Corporation and its subsidiaries. Intercompany transactions and balances have been eliminated.

Estimates and Assumptions

Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. Examples of estimates and assumptions include: for revenue recognition, determining the nature and timing of satisfaction of performance obligations, and determining the standalone selling price (“SSP”) of performance obligations, variable consideration, and other obligations such as product returns and refunds; loss contingencies; product warranties; the fair value of and/or potential impairment of goodwill and intangible assets for our reporting units; product life cycles; useful lives of our tangible and intangible assets; allowances for doubtful accounts; the market value of, and demand for, our inventory; stock-based compensation forfeiture rates; when technological feasibility is achieved for our products; the potential outcome of uncertain tax positions that have been recognized in our consolidated financial statements or tax returns; and determining the timing and amount of impairments for investments. Actual results and outcomes may differ from management’s estimates and assumptions due to risks and uncertainties.

In July 2022, we completed an assessment of the useful lives of our server and network equipment. Due to investments in software that increased efficiencies in how we operate our server and network equipment, as well as advances in technology, we determined we should increase the estimated useful lives of both server and network equipment from four years to six years. This change in accounting estimate was effective beginning fiscal year 2023.

Foreign Currencies

Assets and liabilities recorded in foreign currencies are translated at the exchange rate on the balance sheet date. Revenue and expenses are translated at average rates of exchange prevailing during the year. Translation adjustments resulting from this process are recorded to other comprehensive income.

Revenue

Product Revenue and Service and Other Revenue

Product revenue includes sales from operating systems, cross-device productivity and collaboration applications, server applications, business solution applications, desktop and server management tools, software development tools, video games, and hardware such as PCs, tablets, gaming and entertainment consoles, other intelligent devices, and related accessories.

Service and other revenue includes sales from cloud-based solutions that provide customers with software, services, platforms, and content such as Office 365, Azure, Dynamics 365, and gaming; solution support; and consulting services. Service and other revenue also includes sales from online advertising and LinkedIn.

Revenue Recognition

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services. We enter into contracts that can include various combinations of products and services, which are generally capable of being distinct and accounted for as separate performance obligations. Revenue is recognized net of allowances for returns and any taxes collected from customers, which are subsequently remitted to governmental authorities.

Nature of Products and Services

Licenses for on-premises software provide the customer with a right to use the software as it exists when made available to the customer. Customers may purchase perpetual licenses or subscribe to licenses, which provide customers with the same functionality and differ mainly in the duration over which the customer benefits from the software. Revenue from distinct on-premises licenses is recognized upfront at the point in time when the software is made available to the customer. In cases where we allocate revenue to software updates, primarily because the updates are provided at no additional charge, revenue is recognized as the updates are provided, which is generally ratably over the estimated life of the related device or license.

Certain volume licensing programs, including Enterprise Agreements, include on-premises licenses combined with Software Assurance ("SA"). SA conveys rights to new software and upgrades released over the contract period and provides support, tools, and training to help customers deploy and use products more efficiently. On-premises licenses are considered distinct performance obligations when sold with SA. Revenue allocated to SA is generally recognized ratably over the contract period as customers simultaneously consume and receive benefits, given that SA comprises distinct performance obligations that are satisfied over time.

Cloud services, which allow customers to use hosted software over the contract period without taking possession of the software, are provided on either a subscription or consumption basis. Revenue related to cloud services provided on a subscription basis is recognized ratably over the contract period. Revenue related to cloud services provided on a consumption basis, such as the amount of storage used in a period, is recognized based on the customer utilization of such resources. When cloud services require a significant level of integration and interdependency with software and the individual components are not considered distinct, all revenue is recognized over the period in which the cloud services are provided.

Revenue from search advertising is recognized when the advertisement appears in the search results or when the action necessary to earn the revenue has been completed. Revenue from consulting services is recognized as services are provided.

Our hardware is generally highly dependent on, and interrelated with, the underlying operating system and cannot function without the operating system. In these cases, the hardware and software license are accounted for as a single performance obligation and revenue is recognized at the point in time when ownership is transferred to resellers or directly to end customers through retail stores and online marketplaces.

Refer to Note 19 – Segment Information and Geographic Data for further information, including revenue by significant product and service offering.

Significant Judgments

Our contracts with customers often include promises to transfer multiple products and services to a customer. Determining whether products and services are considered distinct performance obligations that should be accounted for separately versus together may require significant judgment. When a cloud-based service includes both on-premises software licenses and cloud services, judgment is required to determine whether the software license is considered distinct and accounted for separately, or not distinct and accounted for together with the cloud service and recognized over time. Certain cloud services, primarily Office 365, depend on a significant level of integration, interdependency, and interrelation between the desktop applications and cloud services, and are accounted for together as one performance obligation. Revenue from Office 365 is recognized ratably over the period in which the cloud services are provided.

Judgment is required to determine the SSP for each distinct performance obligation. We use a single amount to estimate SSP for items that are not sold separately, including on-premises licenses sold with SA or software updates provided at no

additional charge. We use a range of amounts to estimate SSP when we sell each of the products and services separately and need to determine whether there is a discount to be allocated based on the relative SSP of the various products and services.

In instances where SSP is not directly observable, such as when we do not sell the product or service separately, we determine the SSP using information that may include market conditions and other observable inputs. We typically have more than one SSP for individual products and services due to the stratification of those products and services by customers and circumstances. In these instances, we may use information such as the size of the customer and geographic region in determining the SSP.

Due to the various benefits from and the nature of our SA program, judgment is required to assess the pattern of delivery, including the exercise pattern of certain benefits across our portfolio of customers.

Our products are generally sold with a right of return, we may provide other credits or incentives, and in certain instances we estimate customer usage of our products and services, which are accounted for as variable consideration when determining the amount of revenue to recognize. Returns and credits are estimated at contract inception and updated at the end of each reporting period if additional information becomes available. Changes to our estimated variable consideration were not material for the periods presented.

Contract Balances and Other Receivables

Timing of revenue recognition may differ from the timing of invoicing to customers. We record a receivable when revenue is recognized prior to invoicing, or unearned revenue when revenue is recognized subsequent to invoicing. For multi-year agreements, we generally invoice customers annually at the beginning of each annual coverage period. We record a receivable related to revenue recognized for multi-year on-premises licenses as we have an unconditional right to invoice and receive payment in the future related to those licenses.

Unearned revenue comprises mainly unearned revenue related to volume licensing programs, which may include SA and cloud services. Unearned revenue is generally invoiced annually at the beginning of each contract period for multi-year agreements and recognized ratably over the coverage period. Unearned revenue also includes payments for consulting services to be performed in the future, LinkedIn subscriptions, Office 365 subscriptions, Xbox subscriptions, Windows post-delivery support, Dynamics business solutions, and other offerings for which we have been paid in advance and earn the revenue when we transfer control of the product or service.

Refer to Note 13 – Unearned Revenue for further information, including unearned revenue by segment and changes in unearned revenue during the period.

Payment terms and conditions vary by contract type, although terms generally include a requirement of payment within 30 to 60 days. In instances where the timing of revenue recognition differs from the timing of invoicing, we have determined our contracts generally do not include a significant financing component. The primary purpose of our invoicing terms is to provide customers with simplified and predictable ways of purchasing our products and services, not to receive financing from our customers or to provide customers with financing. Examples include invoicing at the beginning of a subscription term with revenue recognized ratably over the contract period, and multi-year on-premises licenses that are invoiced annually with revenue recognized upfront.

As of June 30, 2024 and 2023, long-term accounts receivable, net of allowance for doubtful accounts, was \$4.9 billion and \$4.5 billion, respectively, and is included in other long-term assets in our consolidated balance sheets.

The allowance for doubtful accounts reflects our best estimate of probable losses inherent in the accounts receivable balance. We determine the allowance based on known troubled accounts, historical experience, and other currently available evidence.

Activity in the allowance for doubtful accounts was as follows:

(In millions)

Year Ended June 30,	2024	2023	2022
Balance, beginning of period	\$ 716	\$ 710	\$ 798
Charged to costs and other	386	258	157
Write-offs	(218)	(252)	(245)
Balance, end of period	<u>\$ 884</u>	<u>\$ 716</u>	<u>\$ 710</u>

Allowance for doubtful accounts included in our consolidated balance sheets:

(In millions)

June 30,	2024	2023	2022
Accounts receivable, net of allowance for doubtful accounts	\$ 830	\$ 650	\$ 633
Other long-term assets	54	66	77
Total	<u>\$ 884</u>	<u>\$ 716</u>	<u>\$ 710</u>

As of June 30, 2024 and 2023, other receivables related to activities to facilitate the purchase of server components were \$10.5 billion and \$9.2 billion, respectively, and are included in other current assets in our consolidated balance sheets.

We record financing receivables when we offer certain customers the option to acquire our software products and services offerings through a financing program in a limited number of countries. As of June 30, 2024 and 2023, our financing receivables, net were \$4.5 billion and \$5.3 billion, respectively, for short-term and long-term financing receivables, which are included in other current assets and other long-term assets in our consolidated balance sheets. We record an allowance to cover expected losses based on troubled accounts, historical experience, and other currently available evidence.

Assets Recognized from Costs to Obtain a Contract with a Customer

We recognize an asset for the incremental costs of obtaining a contract with a customer if we expect the benefit of those costs to be longer than one year. We have determined that certain sales incentive programs meet the requirements to be capitalized. Total capitalized costs to obtain a contract were immaterial during the periods presented and are included in other current and long-term assets in our consolidated balance sheets.

We apply a practical expedient to expense costs as incurred for costs to obtain a contract with a customer when the amortization period would have been one year or less. These costs include our internal sales organization compensation program and certain partner sales incentive programs as we have determined annual compensation is commensurate with annual sales activities.

Cost of Revenue

Cost of revenue includes: manufacturing and distribution costs for products sold and programs licensed; operating costs related to product support service centers and product distribution centers; costs incurred to include software on PCs sold by original equipment manufacturers ("OEM"), to drive traffic to our websites, and to acquire online advertising space; costs incurred to support and maintain cloud-based and other online products and services, including datacenter costs and royalties; warranty costs; inventory valuation adjustments; costs associated with the delivery of consulting services; and the amortization of capitalized software development costs. Capitalized software development costs are amortized over the estimated lives of the products.

Product Warranty

We provide for the estimated costs of fulfilling our obligations under hardware and software warranties at the time the related revenue is recognized. For hardware warranties, we estimate the costs based on historical and projected product failure rates, historical and projected repair costs, and knowledge of specific product failures (if any). The specific hardware warranty terms and conditions vary depending upon the product sold and the country in which we do business, but generally

include parts and labor over a period generally ranging from 90 days to three years. For software warranties, we estimate the costs to provide bug fixes, such as security patches, over the estimated life of the software. We regularly reevaluate our estimates to assess the adequacy of the recorded warranty liabilities and adjust the amounts as necessary.

Research and Development

Research and development expenses include payroll, employee benefits, stock-based compensation expense, and other headcount-related expenses associated with product development. Research and development expenses also include third-party development and programming costs and the amortization of purchased software code and services content. Such costs related to software development are included in research and development expense until the point that technological feasibility is reached, which for our software products, is generally shortly before the products are released to production. Once technological feasibility is reached, such costs are capitalized and amortized to cost of revenue over the estimated lives of the products.

Sales and Marketing

Sales and marketing expenses include payroll, employee benefits, stock-based compensation expense, and other headcount-related expenses associated with sales and marketing personnel, and the costs of advertising, promotions, trade shows, seminars, and other programs. Advertising costs are expensed as incurred. Advertising expense was \$1.7 billion, \$904 million, and \$1.5 billion in fiscal years 2024, 2023, and 2022, respectively.

Stock-Based Compensation

Compensation cost for stock awards, which include restricted stock units ("RSUs") and performance stock units ("PSUs"), is measured at the fair value on the grant date and recognized as expense, net of estimated forfeitures, over the related service or performance period. The fair value of stock awards is based on the quoted price of our common stock on the grant date less the present value of expected dividends not received during the vesting period. We measure the fair value of PSUs using a Monte Carlo valuation model. Compensation cost for RSUs is recognized using the straight-line method and for PSUs is recognized using the accelerated method.

Compensation expense for the employee stock purchase plan ("ESPP") is measured as the discount the employee is entitled to upon purchase and is recognized in the period of purchase.

Income Taxes

Income tax expense includes U.S. and international income taxes, and interest and penalties on uncertain tax positions. Certain income and expenses are not reported in tax returns and financial statements in the same year. The tax effect of such temporary differences is reported as deferred income taxes. Deferred tax assets are reported net of a valuation allowance when it is more likely than not that a tax benefit will not be realized. All deferred income taxes are classified as long-term in our consolidated balance sheets.

Financial Instruments

Investments

We consider all highly liquid interest-earning investments with a maturity of three months or less at the date of purchase to be cash equivalents. The fair values of these investments approximate their carrying values. In general, investments with original maturities of greater than three months and remaining maturities of less than one year are classified as short-term investments. Investments with maturities beyond one year may be classified as short-term based on their highly liquid nature and because such marketable securities represent the investment of cash that is available for current operations.

Debt investments are classified as available-for-sale and realized gains and losses are recorded using the specific identification method. Changes in fair value, excluding credit losses and impairments, are recorded in other comprehensive income. Fair value is calculated based on publicly available market information or other estimates determined by management. If the cost of an investment exceeds its fair value, we evaluate, among other factors, general market conditions, credit quality of debt instrument issuers, and the extent to which the fair value is less than cost. To determine

credit losses, we employ a systematic methodology that considers available quantitative and qualitative evidence. In addition, we consider specific adverse conditions related to the financial health of, and business outlook for, the investee. If we have plans to sell the security or it is more likely than not that we will be required to sell the security before recovery, then a decline in fair value below cost is recorded as an impairment charge in other income (expense), net and a new cost basis in the investment is established. If market, industry, and/or investee conditions deteriorate, we may incur future impairments.

Equity investments with readily determinable fair values are measured at fair value. Equity investments without readily determinable fair values are measured using the equity method or measured at cost with adjustments for observable changes in price or impairments (referred to as the measurement alternative). We perform a qualitative assessment on a periodic basis and recognize an impairment if there are sufficient indicators that the fair value of the investment is less than carrying value. Changes in value are recorded in other income (expense), net.

Investments that are considered variable interest entities ("VIEs") are evaluated to determine whether we are the primary beneficiary of the VIE, in which case we would be required to consolidate the entity. We evaluate whether we have (1) the power to direct the activities that most significantly impact the VIE's economic performance, and (2) the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE. We have determined we are not the primary beneficiary of any of our VIE investments. Therefore, our VIE investments are not consolidated and the majority are accounted for under the equity method of accounting.

Derivatives

Derivative instruments are recognized as either assets or liabilities and measured at fair value. The accounting for changes in the fair value of a derivative depends on the intended use of the derivative and the resulting designation.

For derivative instruments designated as fair value hedges, gains and losses are recognized in other income (expense), net with offsetting gains and losses on the hedged items. Gains and losses representing hedge components excluded from the assessment of effectiveness are recognized in other income (expense), net.

For derivative instruments designated as cash flow hedges, gains and losses are initially reported as a component of other comprehensive income and subsequently recognized in other income (expense), net with the corresponding hedged item. Gains and losses representing hedge components excluded from the assessment of effectiveness are recognized in other income (expense), net.

For derivative instruments that are not designated as hedges, gains and losses from changes in fair values are primarily recognized in other income (expense), net.

Fair Value Measurements

We account for certain assets and liabilities at fair value. The hierarchy below lists three levels of fair value based on the extent to which inputs used in measuring fair value are observable in the market. We categorize each of our fair value measurements in one of these three levels based on the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

- *Level 1* – inputs are based upon unadjusted quoted prices for identical instruments in active markets. Our Level 1 investments include U.S. government securities, common and preferred stock, and mutual funds. Our Level 1 derivative assets and liabilities include those actively traded on exchanges.
- *Level 2* – inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques (e.g. the Black-Scholes model) for which all significant inputs are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Where applicable, these models project future cash flows and discount the future amounts to a present value using market-based observable inputs including interest rate curves, credit spreads, foreign exchange rates, and forward and spot prices for currencies. Our Level 2 investments include commercial paper, certificates of deposit, U.S. agency securities, foreign government bonds, mortgage- and asset-backed securities, corporate notes and bonds, and municipal securities. Our Level 2 derivative assets and liabilities include certain cleared swap contracts and over-the-counter forward, option, and swap contracts.

- *Level 3* – inputs are generally unobservable and typically reflect management’s estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques, including option pricing models and discounted cash flow models. Our Level 3 assets and liabilities include investments in corporate notes and bonds, municipal securities, and goodwill and intangible assets, when they are recorded at fair value due to an impairment charge. Unobservable inputs used in the models are significant to the fair values of the assets and liabilities.

We measure equity investments without readily determinable fair values on a nonrecurring basis. The fair values of these investments are determined based on valuation techniques using the best information available, and may include quoted market prices, market comparables, and discounted cash flow projections.

Our other current financial assets and current financial liabilities have fair values that approximate their carrying values.

Inventories

Inventories are stated at average cost, subject to the lower of cost or net realizable value. Cost includes materials, labor, and manufacturing overhead related to the purchase and production of inventories. Net realizable value is the estimated selling price less estimated costs of completion, disposal, and transportation. We regularly review inventory quantities on hand, future purchase commitments with our suppliers, and the estimated utility of our inventory. If our review indicates a reduction in utility below carrying value, we reduce our inventory to a new cost basis through a charge to cost of revenue.

Property and Equipment

Property and equipment is stated at cost less accumulated depreciation, and depreciated using the straight-line method over the shorter of the estimated useful life of the asset or the lease term. The estimated useful lives of our property and equipment are generally as follows: computer software developed or acquired for internal use, three years; computer equipment, two to six years; buildings and improvements, five to 15 years; leasehold improvements, three to 20 years; and furniture and equipment, one to 10 years. Land is not depreciated.

Leases

We determine if an arrangement is a lease at inception. Operating leases are included in operating lease right-of-use (“ROU”) assets, other current liabilities, and operating lease liabilities in our consolidated balance sheets. Finance leases are included in property and equipment, other current liabilities, and other long-term liabilities in our consolidated balance sheets.

ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of our leases do not provide an implicit rate, we generally use our incremental borrowing rate based on the estimated rate of interest for collateralized borrowing over a similar term of the lease payments at commencement date. The operating lease ROU asset also includes any lease payments made and excludes lease incentives. Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise that option. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

We have lease agreements with lease and non-lease components, which are generally accounted for separately. For certain equipment leases, such as vehicles, we account for the lease and non-lease components as a single lease component. Additionally, for certain equipment leases, we apply a portfolio approach to effectively account for the operating lease ROU assets and liabilities.

Goodwill

Goodwill is tested for impairment at the reporting unit level (operating segment or one level below an operating segment) on an annual basis (May 1) and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value.

Intangible Assets

Our intangible assets are subject to amortization and are amortized over the estimated useful life in proportion to the economic benefits received. We evaluate the recoverability of intangible assets periodically by taking into account events or circumstances that may warrant revised estimates of useful lives or that indicate the asset may be impaired.

Related Party Transactions

In March 2024, we entered into an agreement with Inflection AI, Inc. (“Inflection”), pursuant to which we obtained a non-exclusive license to Inflection’s intellectual property. Reid Hoffman, a member of our Board of Directors, is a co-founder of and serves on the board of directors of Inflection. As of the date of the agreement with Inflection, Reprogrammed Interchange LLC (“Reprogrammed”) and entities affiliated with Greylock Ventures (“Greylock”) each held less than a 10% equity interest in Inflection. Mr. Hoffman may be deemed to beneficially own the shares held by Reprogrammed and Greylock by virtue of his relationship with such entities. Mr. Hoffman did not participate in any portions of the meetings of our Board of Directors or any committee thereof to review and approve the transaction with Inflection.

Recent Accounting Guidance

Segment Reporting – Improvements to Reportable Segment Disclosures

In November 2023, the Financial Accounting Standards Board (“FASB”) issued a new standard to improve reportable segment disclosures. The guidance expands the disclosures required for reportable segments in our annual and interim consolidated financial statements, primarily through enhanced disclosures about significant segment expenses. The standard will be effective for us beginning with our annual reporting for fiscal year 2025 and interim periods thereafter, with early adoption permitted. We are currently evaluating the impact of this standard on our segment disclosures.

Income Taxes – Improvements to Income Tax Disclosures

In December 2023, the FASB issued a new standard to improve income tax disclosures. The guidance requires disclosure of disaggregated income taxes paid, prescribes standardized categories for the components of the effective tax rate reconciliation, and modifies other income tax-related disclosures. The standard will be effective for us beginning with our annual reporting for fiscal year 2026, with early adoption permitted. We are currently evaluating the impact of this standard on our income tax disclosures.

NOTE 2 — EARNINGS PER SHARE

Basic earnings per share ("EPS") is computed based on the weighted average number of shares of common stock outstanding during the period. Diluted EPS is computed based on the weighted average number of shares of common stock plus the effect of dilutive potential common shares outstanding during the period using the treasury stock method. Dilutive potential common shares include outstanding stock options and stock awards.

The components of basic and diluted EPS were as follows:

(In millions, except per share amounts)

Year Ended June 30,	2024	2023	2022
Net income available for common shareholders (A)	\$ 88,136	\$ 72,361	\$ 72,738
Weighted average outstanding shares of common stock (B)	7,431	7,446	7,496
Dilutive effect of stock-based awards	38	26	44
Common stock and common stock equivalents (C)	7,469	7,472	7,540
Earnings Per Share			
Basic (A/B)	\$ 11.86	\$ 9.72	\$ 9.70
Diluted (A/C)	\$ 11.80	\$ 9.68	\$ 9.65

Anti-dilutive stock-based awards excluded from the calculations of diluted EPS were immaterial during the periods presented.

NOTE 3 — OTHER INCOME (EXPENSE), NET

The components of other income (expense), net were as follows:

(In millions)

Year Ended June 30,	2024	2023	2022
Interest and dividends income	\$ 3,157	\$ 2,994	\$ 2,094
Interest expense	(2,935)	(1,968)	(2,063)
Net recognized gains (losses) on investments	(118)	260	461
Net losses on derivatives	(187)	(456)	(52)
Net gains (losses) on foreign currency remeasurements	(244)	181	(75)
Other, net	(1,319)	(223)	(32)
Total	\$ (1,646)	\$ 788	\$ 333

Other, net primarily reflects net recognized losses on equity method investments.

Net Recognized Gains (Losses) on Investments

Net recognized gains (losses) on debt investments were as follows:

(In millions)

Year Ended June 30,	2024	2023	2022
Realized gains from sales of available-for-sale securities	\$ 22	\$ 36	\$ 162
Realized losses from sales of available-for-sale securities	(98)	(124)	(138)
Impairments and allowance for credit losses	23	(10)	(81)
Total	\$ (53)	\$ (98)	\$ (57)

Net recognized gains (losses) on equity investments were as follows:

(In millions)

Year Ended June 30,	2024	2023	2022
Net realized gains on investments sold	\$ 18	\$ 75	\$ 29
Net unrealized gains on investments still held	146	303	509
Impairments of investments	(229)	(20)	(20)
Total	<u>\$ (65)</u>	<u>\$ 358</u>	<u>\$ 518</u>

NOTE 4 — INVESTMENTS

Investment Components

The components of investments were as follows:

(In millions)	Fair Value Level	Adjusted Cost Basis	Unrealized Gains	Unrealized Losses	Recorded Basis	Cash and Cash Equivalents	Short-term Investments	Equity and Other Investments
June 30, 2024								
Changes in Fair Value Recorded in Other Comprehensive Income

Municipal securities	Level 3	103	0	(16)	87	0	87	0
Total debt investments		\$ 99,869	\$ 13	\$ (4,550)	\$ 95,332	\$ 18,780	\$ 76,552	\$ 0
Changes in Fair Value Recorded in Net Income								
Equity investments	Level 1				\$ 10,138	\$ 7,446	\$ 0	\$ 2,692
Equity investments	Other				7,187	0	0	7,187
Total equity investments					\$ 17,325	\$ 7,446	\$ 0	\$ 9,879
Cash					\$ 8,478	\$ 8,478	\$ 0	\$ 0
Derivatives, net ^(a)					6	0	6	0
Total					\$ 121,141	\$ 34,704	\$ 76,558	\$ 9,879

(a) Refer to Note 5 – Derivatives for further information on the fair value of our derivative instruments.

Equity investments presented as “Other” in the tables above include investments without readily determinable fair values measured using the equity method or measured at cost with adjustments for observable changes in price or impairments, and investments measured at fair value using net asset value as a practical expedient which are not categorized in the fair value hierarchy. As of June 30, 2024 and 2023, equity investments without readily determinable fair values measured at cost with adjustments for observable changes in price or impairments were \$3.9 billion and \$4.2 billion, respectively.

Unrealized Losses on Debt Investments

Debt investments with continuous unrealized losses for less than 12 months and 12 months or greater and their related fair values were as follows:

	Less than 12 Months		12 Months or Greater			
(In millions)	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Total Fair Value	Total Unrealized Losses
June 30, 2024						
U.S. government and agency securities	\$ 529	\$ (12)	\$ 45,821	\$ (2,936)	\$ 46,350	\$ (2,948)
Foreign government bonds	79	(2)	180	(14)	259	(16)
Mortgage- and asset-backed securities	201	(1)	409	(34)	610	(35)
Corporate notes and bonds	1,310	(9)	5,779	(310)	7,089	(319)
Municipal securities	38	(1)	243	(29)	281	(30)
Total	\$ 2,157	\$ (25)	\$ 52,432	\$ (3,323)	\$ 54,589	\$ (3,348)

	Less than 12 Months		12 Months or Greater			
(In millions)	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Total Fair Value	Total Unrealized Losses
June 30, 2023						
U.S. government and agency securities	\$ 7,950	\$ (336)	\$ 45,273	\$ (3,534)	\$ 53,223	\$ (3,870)
Foreign government bonds	77	(5)	391	(19)	468	(24)
Mortgage- and asset-backed securities	257	(5)	412	(34)	669	(39)
Corporate notes and bonds	2,326	(49)	7,336	(534)	9,662	(583)
Municipal securities	111	(3)	186	(31)	297	(34)
Total	\$ 10,721	\$ (398)	\$ 53,598	\$ (4,152)	\$ 64,319	\$ (4,550)

Unrealized losses from fixed-income securities are primarily attributable to changes in interest rates. Management does not believe any remaining unrealized losses represent impairments based on our evaluation of available evidence.

Debt Investment Maturities

The following table outlines maturities of our debt investments as of June 30, 2024:

(In millions)	Adjusted Cost Basis	Estimated Fair Value
June 30, 2024		
Due in one year or less	\$ 19,815	\$ 19,596
Due after one year through five years	38,954	36,779
Due after five years through 10 years	8,028	7,242
Due after 10 years	1,412	1,282
Total	<u>\$ 68,209</u>	<u>\$ 64,899</u>

NOTE 5 — DERIVATIVES

We use derivative instruments to manage risks related to foreign currencies, interest rates, equity prices, and credit; to enhance investment returns; and to facilitate portfolio diversification. Our objectives for holding derivatives include reducing, eliminating, and efficiently managing the economic impact of these exposures as effectively as possible. Our derivative programs include strategies that both qualify and do not qualify for hedge accounting treatment.

Foreign Currencies

Certain forecasted transactions, assets, and liabilities are exposed to foreign currency risk. We monitor our foreign currency exposures daily to maximize the economic effectiveness of our foreign currency hedge positions.

Foreign currency risks related to certain non-U.S. dollar-denominated investments are hedged using foreign exchange forward contracts that are designated as fair value hedging instruments. Foreign currency risks related to certain Euro-denominated debt are hedged using foreign exchange forward contracts that are designated as cash flow hedging instruments.

Certain options and forwards not designated as hedging instruments are also used to manage the variability in foreign exchange rates on certain balance sheet amounts and to manage other foreign currency exposures.

Interest Rate

Interest rate risks related to certain fixed-rate debt are hedged using interest rate swaps that are designated as fair value hedging instruments to effectively convert the fixed interest rates to floating interest rates.

Securities held in our fixed-income portfolio are subject to different interest rate risks based on their maturities. We manage the average maturity of our fixed-income portfolio to achieve economic returns that correlate to certain broad-based fixed-income indices using option, futures, and swap contracts. These contracts are not designated as hedging instruments and are included in “Other contracts” in the tables below.

Equity

Securities held in our equity investments portfolio are subject to market price risk. At times, we may hold options, futures, and swap contracts. These contracts are not designated as hedging instruments.

Credit

Our fixed-income portfolio is diversified and consists primarily of investment-grade securities. We use credit default swap contracts to manage credit exposures relative to broad-based indices and to facilitate portfolio diversification. These contracts are not designated as hedging instruments and are included in “Other contracts” in the tables below.

Credit-Risk-Related Contingent Features

Certain counterparty agreements for derivative instruments contain provisions that require our issued and outstanding long-term unsecured debt to maintain an investment grade credit rating and require us to maintain minimum liquidity of \$1.0 billion. To the extent we fail to meet these requirements, we will be required to post collateral, similar to the standard convention related to over-the-counter derivatives. As of June 30, 2024, our long-term unsecured debt rating was AAA, and cash investments were in excess of \$1.0 billion. As a result, no collateral was required to be posted.

The following table presents the notional amounts of our outstanding derivative instruments measured in U.S. dollar equivalents:

(In millions)	June 30, 2024	June 30, 2023
Designated as Hedging Instruments		
Foreign exchange contracts purchased	\$ 1,492	\$ 1,492
Interest rate contracts purchased	1,100	1,078
Not Designated as Hedging Instruments		
Foreign exchange contracts purchased	7,167	7,874
Foreign exchange contracts sold	31,793	25,159
Equity contracts purchased	4,016	3,867
Equity contracts sold	2,165	2,154
Other contracts purchased	2,113	1,224
Other contracts sold	811	581

Fair Values of Derivative Instruments

The following table presents our derivative instruments:

(In millions)	Derivative Assets	Derivative Liabilities	Derivative Assets	Derivative Liabilities
		June 30, 2024		June 30, 2023
Designated as Hedging Instruments				
Foreign exchange contracts	\$ 24	\$ (76)	\$ 34	\$ (67)
Interest rate contracts	19	0	16	0
Not Designated as Hedging Instruments				
Foreign exchange contracts	213	(230)	249	(332)
Equity contracts	63	(491)	165	(400)
Other contracts	12	(3)	5	(6)
Gross amounts of derivatives	331	(800)	469	(805)
Gross amounts of derivatives offset in the balance sheets	(151)	152	(202)	206
Cash collateral received	0	(104)	0	(125)
Net amounts of derivatives	<u>\$ 180</u>	<u>\$ (752)</u>	<u>\$ 267</u>	<u>\$ (724)</u>
Reported as				
Short-term investments	\$ 12	\$ 0	\$ 6	\$ 0
Other current assets	149	0	245	0
Other long-term assets	19	0	16	0
Other current liabilities	0	(401)	0	(341)
Other long-term liabilities	0	(351)	0	(383)
Total	<u>\$ 180</u>	<u>\$ (752)</u>	<u>\$ 267</u>	<u>\$ (724)</u>

Gross derivative assets and liabilities subject to legally enforceable master netting agreements for which we have elected to offset were \$304 million and \$800 million, respectively, as of June 30, 2024, and \$442 million and \$804 million, respectively, as of June 30, 2023.

The following table presents the fair value of our derivatives instruments on a gross basis:

(In millions)	Level 1	Level 2	Level 3	Total
June 30, 2024				
Derivative assets	\$ 0	\$ 327	\$ 4	\$ 331
Derivative liabilities	(1)	(799)	0	(800)
June 30, 2023				
Derivative assets	0	462	7	469
Derivative liabilities	0	(805)	0	(805)

Gains (losses) on derivative instruments recognized in other income (expense), net were as follows:

(In millions)	2024	2023	2022
Year Ended June 30,			
Designated as Fair Value Hedging Instruments			
Foreign exchange contracts			
Derivatives	\$ 0	\$ 0	\$ 49
Hedged items	0	0	(50)
Excluded from effectiveness assessment	0	0	4
Interest rate contracts			
Derivatives	(23)	(65)	(92)
Hedged items	(25)	38	108
Designated as Cash Flow Hedging Instruments			
Foreign exchange contracts			
Amount reclassified from accumulated other comprehensive loss	(48)	61	(79)
Not Designated as Hedging Instruments			
Foreign exchange contracts	367	(73)	383
Equity contracts	(177)	(420)	13
Other contracts	(15)	(41)	(85)

Gains (losses), net of tax, on derivative instruments recognized in our consolidated comprehensive income statements were as follows:

(In millions)	2024	2023	2022
Year Ended June 30,			
Designated as Cash Flow Hedging Instruments			
Foreign exchange contracts			
Included in effectiveness assessment	\$ (14)	\$ 34	\$ (57)

NOTE 6 — INVENTORIES

The components of inventories were as follows:

(In millions)	2024	2023
June 30,		
Raw materials	\$ 394	\$ 709
Work in process	7	23
Finished goods	845	1,768
Total	\$ 1,246	\$ 2,500

NOTE 7 — PROPERTY AND EQUIPMENT

The components of property and equipment were as follows:

(In millions)

June 30,	2024	2023
Land	\$ 8,163	\$ 5,683
Buildings and improvements	93,943	68,465
Leasehold improvements	9,594	8,537
Computer equipment and software	93,780	74,961
Furniture and equipment	6,532	6,246
Total, at cost	212,012	163,892
Accumulated depreciation	(76,421)	(68,251)
Total, net	<u>\$ 135,591</u>	<u>\$ 95,641</u>

During fiscal years 2024, 2023, and 2022, depreciation expense was \$15.2 billion, \$11.0 billion, and \$12.6 billion, respectively.

As of June 30, 2024, we have committed \$35.4 billion for the construction of new buildings, building improvements, and leasehold improvements, primarily related to datacenters.

NOTE 8 — BUSINESS COMBINATIONS

Activision Blizzard, Inc.

On October 13, 2023, we completed our acquisition of Activision Blizzard, Inc. ("Activision Blizzard") for a total purchase price of \$75.4 billion, consisting primarily of cash. Activision Blizzard is a leader in game development and an interactive entertainment content publisher. The acquisition will accelerate the growth in our gaming business across mobile, PC, console, and cloud gaming. The financial results of Activision Blizzard have been included in our consolidated financial statements since the date of the acquisition. Activision Blizzard is reported as part of our More Personal Computing segment.

The purchase price allocation as of the date of acquisition was based on a preliminary valuation and is subject to revision as more detailed analyses are completed and additional information about the fair value of assets acquired and liabilities assumed becomes available. The primary areas that remain preliminary relate to the fair values of goodwill and income taxes.

The major classes of assets and liabilities to which we have preliminarily allocated the purchase price were as follows:

(In millions)

Cash and cash equivalents	\$ 12,976
Goodwill	50,969
Intangible assets	21,969
Other assets	2,501
Long-term debt	(2,799)
Long-term income taxes	(1,914)
Deferred income taxes	(4,677)
Other liabilities	(3,617)
Total purchase price	<u>\$ 75,408</u>

Goodwill was assigned to our More Personal Computing segment. The goodwill was primarily attributed to increased synergies that are expected to be achieved from the integration of Activision Blizzard. Substantially all of the goodwill is expected to be non-deductible for income tax purposes.

Following are the details of the purchase price allocated to the intangible assets acquired:

(In millions, except average life)	Amount	Weighted Average Life
Marketing-related	\$ 11,619	24 years
Technology-based	9,689	4 years
Customer-related	661	4 years
Fair value of intangible assets acquired	<u>\$ 21,969</u>	15 years

Following is the net impact of the Activision Blizzard acquisition on our consolidated income statements since the date of acquisition:

(In millions)	
Year Ended June 30,	2024
Revenue	\$ 5,729
Operating loss	(1,362)

The change of Activision Blizzard content from third-party to first-party is reflected in the net impact.

Following are the supplemental consolidated financial results of Microsoft Corporation on an unaudited pro forma basis, as if the acquisition had been consummated on July 1, 2022:

(In millions, except per share amounts)			
Year Ended June 30,	2024		2023
Revenue	\$ 247,442	\$	219,790
Net income	88,308		71,383
Diluted earnings per share	11.82		9.55

These pro forma results were based on estimates and assumptions, which we believe are reasonable. They are not the results that would have been realized had we been a combined company during the periods presented and are not necessarily indicative of our consolidated results of operations in future periods. The pro forma results include adjustments related to purchase accounting, primarily amortization of intangible assets. Acquisition costs and other nonrecurring charges were immaterial and are included in the earliest period presented.

Nuance Communications, Inc.

On March 4, 2022, we completed our acquisition of Nuance Communications, Inc. ("Nuance") for a total purchase price of \$18.8 billion, consisting primarily of cash. Nuance is a cloud and artificial intelligence ("AI") software provider with healthcare and enterprise AI experience, and the acquisition will build on our industry-specific cloud offerings. The financial results of Nuance have been included in our consolidated financial statements since the date of the acquisition. Nuance is reported as part of our Intelligent Cloud segment.

The allocation of the purchase price to goodwill was completed as of December 31, 2022. The major classes of assets and liabilities to which we have allocated the purchase price were as follows:

(In millions)	
Goodwill ^(a)	\$ 16,326
Intangible assets	4,365
Other assets	42
Other liabilities ^(b)	(1,972)
Total	<u>\$ 18,761</u>

- (a) Goodwill was assigned to our Intelligent Cloud segment and was primarily attributed to increased synergies that are expected to be achieved from the integration of Nuance. None of the goodwill is expected to be deductible for income tax purposes.
- (b) Includes \$986 million of convertible senior notes issued by Nuance in 2015 and 2017, substantially all of which have been redeemed.

Following are the details of the purchase price allocated to the intangible assets acquired:

(In millions, except average life)	Amount	Weighted Average Life
Customer-related	\$ 2,610	9 years
Technology-based	1,540	5 years
Marketing-related	215	4 years
Total	<u>\$ 4,365</u>	7 years

NOTE 9 — GOODWILL

Changes in the carrying amount of goodwill were as follows:

(In millions)	June 30, 2022	Acquisitions	Other	June 30, 2023	Acquisitions	Other	June 30, 2024
Productivity and Business Processes	\$ 24,811	\$ 11	\$(47)	\$ 24,775	\$ 0	\$ 2	\$ 24,777
Intelligent Cloud	30,182	223	64	30,469	0	(28)	30,441
More Personal Computing	12,531	0	111	12,642	51,235 ^(a)	125 ^(a)	64,002
Total	\$ 67,524	\$ 234	\$ 128	\$ 67,886	\$ 51,235	\$ 99	\$ 119,220

- (a) Includes goodwill of \$51.0 billion related to Activision Blizzard. See Note 8 – Business Combinations for further information.

The measurement periods for the valuation of assets acquired and liabilities assumed end as soon as information on the facts and circumstances that existed as of the acquisition dates becomes available, but do not exceed 12 months. Adjustments in purchase price allocations may require a change in the amounts allocated to goodwill during the periods in which the adjustments are determined.

Any change in the goodwill amounts resulting from foreign currency translations and purchase accounting adjustments are presented as “Other” in the table above. Also included in “Other” are business dispositions and transfers between segments due to reorganizations, as applicable.

Goodwill Impairment

We test goodwill for impairment annually on May 1 at the reporting unit level, primarily using a discounted cash flow methodology with a peer-based, risk-adjusted weighted average cost of capital. We believe use of a discounted cash flow approach is the most reliable indicator of the fair values of the businesses.

No instances of impairment were identified in our May 1, 2024, May 1, 2023, or May 1, 2022 tests. As of June 30, 2024 and 2023, accumulated goodwill impairment was \$11.3 billion.

NOTE 10 — INTANGIBLE ASSETS

The components of intangible assets, all of which are finite-lived, were as follows:

(In millions)	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
June 30,			2024			2023
Marketing-related	\$ 16,500	\$ (3,101)	\$ 13,399	\$ 4,935	\$ (2,473)	\$ 2,462
Technology-based	21,913	(10,741)	11,172	11,245	(7,589)	3,656
Customer-related	6,038	(3,051)	2,987	7,281	(4,047)	3,234
Contract-based	58	(19)	39	29	(15)	14
Total	<u>\$ 44,509^(a)</u>	<u>\$ (16,912)</u>	<u>\$ 27,597</u>	<u>\$ 23,490</u>	<u>\$ (14,124)</u>	<u>\$ 9,366</u>

(a) Includes intangible assets of \$22.0 billion related to Activision Blizzard. See Note 8 – Business Combinations for further information.

No material impairments of intangible assets were identified during fiscal years 2024, 2023, or 2022. We estimate that we have no significant residual value related to our intangible assets.

The components of intangible assets acquired during the periods presented were as follows:

(In millions)	Amount	Weighted Average Life	Amount	Weighted Average Life
Year Ended June 30,	2024		2023	
Marketing-related	\$ 11,619	24 years	\$ 7	5 years
Technology-based	10,947	4 years	522	7 years
Customer-related	660	4 years	0	0 years
Contract-based	38	4 years	12	3 years
Total	<u>\$ 23,264</u>	14 years	<u>\$ 541</u>	6 years

Intangible assets amortization expense was \$4.8 billion, \$2.5 billion, and \$2.0 billion for fiscal years 2024, 2023, and 2022, respectively.

The following table outlines the estimated future amortization expense related to intangible assets held as of June 30, 2024:

(In millions)	
Year Ending June 30,	
2025	\$ 5,892
2026	4,471
2027	2,793
2028	1,909
2029	1,728
Thereafter	10,804
Total	<u>\$ 27,597</u>

NOTE 11 — DEBT

Short-term Debt

As of June 30, 2024, we had \$6.7 billion of commercial paper issued and outstanding, with a weighted average interest rate of 5.4% and maturities ranging from 28 days to 152 days. The estimated fair value of this commercial paper approximates its carrying value. As of June 30, 2023, we had no commercial paper issued or outstanding.

Long-term Debt

The components of long-term debt were as follows:

(In millions, issuance by calendar year)	Maturities (calendar year)	Stated Interest Rate	Effective Interest Rate	June 30, 2024	June 30, 2023
2009 issuance of \$3.8 billion	2039	5.20%	5.24%	\$ 520	\$ 520
2010 issuance of \$4.8 billion	2040	4.50%	4.57%	486	486
2011 issuance of \$2.3 billion	2041	5.30%	5.36%	718	718
2012 issuance of \$2.3 billion	2042	3.50%	3.57%	454	454
2013 issuance of \$5.2 billion	2043	3.75%–4.88%	3.83%–4.92%	314	1,814
2013 issuance of €4.1 billion	2028–2033	2.63%–3.13%	2.69%–3.22%	2,465	2,509
2015 issuance of \$23.8 billion	2025–2055	2.70%–4.75%	2.77%–4.78%	9,805	9,805
2016 issuance of \$19.8 billion	2026–2056	2.40%–3.95%	2.46%–4.03%	7,930	9,430
2017 issuance of \$17.1 billion ^(a)	2026–2057	3.30%–4.50%	3.38%–5.49%	6,833	8,945
2020 issuance of \$10.1 billion ^(a)	2030–2060	1.35%–2.68%	2.53%–5.43%	10,111	10,000
2021 issuance of \$8.2 billion	2052–2062	2.92%–3.04%	2.92%–3.04%	8,185	8,185
2023 issuance of \$0.1 billion ^(a)	2026–2050	1.35%–4.50%	5.16%–5.49%	56	0
2024 issuance of \$3.3 billion ^(a)	2026–2050	1.35%–4.50%	5.16%–5.49%	3,344	0
Total face value				51,221	52,866
Unamortized discount and issuance costs				(1,227)	(438)
Hedge fair value adjustments ^(b)				(81)	(106)
Premium on debt exchange				(4,976)	(5,085)
Total debt				44,937	47,237
Current portion of long-term debt				(2,249)	(5,247)
Long-term debt				<u>\$ 42,688</u>	<u>\$ 41,990</u>

(a) Includes \$3.6 billion of debt at face value related to the Activision Blizzard acquisition, the majority of which was exchanged for Microsoft registered securities in June 2024. See Note 8 – Business Combinations for further information.

(b) Refer to Note 5 – Derivatives for further information on the interest rate swaps related to fixed-rate debt.

As of June 30, 2024 and 2023, the estimated fair value of long-term debt, including the current portion, was \$42.3 billion and \$46.2 billion, respectively. The estimated fair values are based on Level 2 inputs.

Debt in the table above is comprised of senior unsecured obligations and ranks equally with our other outstanding obligations. Interest is paid semi-annually, except for the Euro-denominated debt, which is paid annually. Cash paid for interest on our debt for fiscal years 2024, 2023, and 2022 was \$1.7 billion, \$1.7 billion, and \$1.9 billion, respectively.

The following table outlines maturities of our long-term debt, including the current portion, as of June 30, 2024:

(In millions)

Year Ending June 30,		
2025	\$	2,250
2026		3,000
2027		9,250
2028		0
2029		1,876
Thereafter		34,845
Total	\$	<u>51,221</u>

NOTE 12 — INCOME TAXES

Provision for Income Taxes

The components of the provision for income taxes were as follows:

(In millions)

Year Ended June 30,	2024	2023	2022
Current Taxes			
U.S. federal	\$ 12,165	\$ 14,009	\$ 8,329
U.S. state and local	2,366	2,322	1,679
Foreign	9,858	6,678	6,672
Current taxes	\$ 24,389	\$ 23,009	\$ 16,680
Deferred Taxes			
U.S. federal	\$ (4,791)	\$ (6,146)	\$ (4,815)
U.S. state and local	(379)	(477)	(1,062)
Foreign	432	564	175
Deferred taxes	\$ (4,738)	\$ (6,059)	\$ (5,702)
Provision for income taxes	<u>\$ 19,651</u>	<u>\$ 16,950</u>	<u>\$ 10,978</u>

U.S. and foreign components of income before income taxes were as follows:

(In millions)

Year Ended June 30,	2024	2023	2022
U.S.	\$ 62,886	\$ 52,917	\$ 47,837
Foreign	44,901	36,394	35,879
Income before income taxes	<u>\$ 107,787</u>	<u>\$ 89,311</u>	<u>\$ 83,716</u>

Effective Tax Rate

The items accounting for the difference between income taxes computed at the U.S. federal statutory rate and our effective rate were as follows:

Year Ended June 30,	2024	2023	2022
Federal statutory rate	21.0%	21.0%	21.0%
Effect of:			
Foreign earnings taxed at lower rates	(1.4)%	(1.8)%	(1.3)%
Impact of intangible property transfers	0%	0%	(3.9)%
Foreign-derived intangible income deduction	(1.1)%	(1.3)%	(1.1)%
State income taxes, net of federal benefit	1.5%	1.6%	1.4%
Research and development credit	(1.1)%	(1.1)%	(0.9)%
Excess tax benefits relating to stock-based compensation	(1.1)%	(0.7)%	(1.9)%
Interest, net	1.1%	0.8%	0.5%
Other reconciling items, net	(0.7)%	0.5%	(0.7)%
Effective rate	18.2%	19.0%	13.1%

In the first quarter of fiscal year 2022, we transferred certain intangible properties from our Puerto Rico subsidiary to the U.S. The transfer of intangible properties resulted in a \$3.3 billion net income tax benefit in the first quarter of fiscal year 2022, as the value of future U.S. tax deductions exceeded the current tax liability from the U.S. global intangible low-taxed income ("GILTI") tax.

The decrease from the federal statutory rate in fiscal year 2024 and 2023 is primarily due to earnings taxed at lower rates in foreign jurisdictions resulting from producing and distributing our products and services through our foreign regional operations center in Ireland. The decrease from the federal statutory rate in fiscal year 2022 is primarily due to the net income tax benefit related to the transfer of intangible properties, earnings taxed at lower rates in foreign jurisdictions resulting from producing and distributing our products and services through our foreign regional operations center in Ireland, and tax benefits relating to stock-based compensation. In fiscal years 2024 and 2023, our foreign regional operating center in Ireland, which is taxed at a rate lower than the U.S. rate, generated 83% and 81% of our foreign income before tax. In fiscal year 2022, our foreign regional operating centers in Ireland and Puerto Rico, which are taxed at rates lower than the U.S. rate, generated 71% of our foreign income before tax. Other reconciling items, net consists primarily of tax credits and GILTI tax, and in fiscal year 2024, includes tax benefits from tax law changes. In fiscal year 2024, tax benefits from tax law changes primarily relates to the issuance of Notice 2023-55 and Notice 2023-80 by the Internal Revenue Service ("IRS") and U.S. Treasury Department. Notice 2023-55, issued in the first quarter of fiscal year 2024, delayed the effective date of final foreign tax credit regulations to fiscal year 2024 for Microsoft. Notice 2023-80, issued in the second quarter of fiscal year 2024, further delayed the effective date of final foreign tax credit regulations indefinitely. In fiscal years 2024, 2023, and 2022, there were no individually significant other reconciling items.

The decrease in our effective tax rate for fiscal year 2024 compared to fiscal year 2023 was primarily due to tax benefits from tax law changes, including the delay of the effective date of final foreign tax credit regulations. The increase in our effective tax rate for fiscal year 2023 compared to fiscal year 2022 was primarily due to a \$3.3 billion net income tax benefit in the first quarter of fiscal year 2022 related to the transfer of intangible properties and a decrease in tax benefits relating to stock-based compensation.

The components of the deferred income tax assets and liabilities were as follows:

(In millions)

June 30,	2024	2023
Deferred Income Tax Assets		
Stock-based compensation expense	\$ 765	\$ 681
Accruals, reserves, and other expenses	4,381	3,131
Loss and credit carryforwards	1,741	1,441
Amortization	4,159	9,440
Leasing liabilities	6,504	5,041
Unearned revenue	3,717	3,296
Book/tax basis differences in investments and debt	9	373
Capitalized research and development	11,442	6,958
Other	426	489
Deferred income tax assets	33,144	30,850
Less valuation allowance	(1,045)	(939)
Deferred income tax assets, net of valuation allowance	\$ 32,099	\$ 29,911
Deferred Income Tax Liabilities		
Leasing assets	\$ (6,503)	\$ (4,680)
Depreciation	(3,940)	(2,674)
Deferred tax on foreign earnings	(1,837)	(2,738)
Other	(167)	(89)
Deferred income tax liabilities	\$ (12,447)	\$ (10,181)
Net deferred income tax assets	\$ 19,652	\$ 19,730
Reported As		
Other long-term assets	\$ 22,270	\$ 20,163
Long-term deferred income tax liabilities	(2,618)	(433)
Net deferred income tax assets	\$ 19,652	\$ 19,730

Deferred income tax balances reflect the effects of temporary differences between the carrying amounts of assets and liabilities and their tax bases and are stated at enacted tax rates expected to be in effect when the taxes are paid or recovered.

As of June 30, 2024, we had federal, state, and foreign net operating loss carryforwards of \$476 million, \$899 million, and \$2.6 billion, respectively. The federal and state net operating loss carryforwards have varying expiration dates ranging from fiscal year 2025 to 2044 or indefinite carryforward periods, if not utilized. The majority of our foreign net operating loss carryforwards do not expire. Certain acquired net operating loss carryforwards are subject to an annual limitation but are expected to be realized with the exception of those which have a valuation allowance. As of June 30, 2024, we had \$456 million federal capital loss carryforwards for U.S. tax purposes from our acquisition of Nuance. The federal capital loss carryforwards are subject to an annual limitation and will expire in fiscal year 2025.

The valuation allowance disclosed in the table above relates to the foreign net operating loss carryforwards, federal capital loss carryforwards, and other net deferred tax assets that may not be realized.

Income taxes paid, net of refunds, were \$23.4 billion, \$23.1 billion, and \$16.0 billion in fiscal years 2024, 2023, and 2022, respectively.

Uncertain Tax Positions

Gross unrecognized tax benefits related to uncertain tax positions as of June 30, 2024, 2023, and 2022, were \$22.8 billion, \$17.1 billion, and \$15.6 billion, respectively, which were primarily included in long-term income taxes in our consolidated balance sheets. If recognized, the resulting tax benefit would affect our effective tax rates for fiscal years 2024, 2023, and 2022 by \$19.6 billion, \$14.4 billion, and \$13.3 billion, respectively.

As of June 30, 2024, 2023, and 2022, we had accrued interest expense related to uncertain tax positions of \$6.8 billion, \$5.2 billion, and \$4.3 billion, respectively, net of income tax benefits. The provision for income taxes for fiscal years 2024, 2023, and 2022 included interest expense related to uncertain tax positions of \$1.5 billion, \$918 million, and \$36 million, respectively, net of income tax benefits.

The aggregate changes in the gross unrecognized tax benefits related to uncertain tax positions were as follows:

(In millions)

Year Ended June 30,	2024	2023	2022
Beginning unrecognized tax benefits	\$ 17,120	\$ 15,593	\$ 14,550
Decreases related to settlements	(76)	(329)	(317)
Increases for tax positions related to the current year	1,903	1,051	1,145
Increases for tax positions related to prior years ^(a)	4,289	870	461
Decreases for tax positions related to prior years	(464)	(60)	(246)
Decreases due to lapsed statutes of limitations	(12)	(5)	0
Ending unrecognized tax benefits	<u>\$ 22,760</u>	<u>\$ 17,120</u>	<u>\$ 15,593</u>

(a) Fiscal year 2024 includes unrecognized tax benefits of \$3.4 billion related to the acquisition of Activision Blizzard. See Note 8 – Business Combinations for further information.

We remain under audit by the IRS for tax years 2014 to 2017. With respect to the audit for tax years 2004 to 2013, on September 26, 2023, we received Notices of Proposed Adjustment (“NOPAs”) from the IRS. The primary issues in the NOPAs relate to intercompany transfer pricing. In the NOPAs, the IRS is seeking an additional tax payment of \$28.9 billion plus penalties and interest. As of June 30, 2024, we believe our allowances for income tax contingencies are adequate. We disagree with the proposed adjustments and will vigorously contest the NOPAs through the IRS’s administrative appeals office and, if necessary, judicial proceedings. We do not expect a final resolution of these issues in the next 12 months. Based on the information currently available, we do not anticipate a significant increase or decrease to our income tax contingencies for these issues within the next 12 months.

We are subject to income tax in many jurisdictions outside the U.S. Our operations in certain jurisdictions remain subject to examination for tax years 1996 to 2023, some of which are currently under audit by local tax authorities. The resolution of each of these audits is not expected to be material to our consolidated financial statements.

NOTE 13 — UNEARNED REVENUE

Unearned revenue by segment was as follows:

(In millions)

June 30,	2024	2023
Productivity and Business Processes	\$ 30,879	\$ 27,572
Intelligent Cloud	23,117	21,563
More Personal Computing	6,188	4,678
Total	<u>\$ 60,184</u>	<u>\$ 53,813</u>

Changes in unearned revenue were as follows:

(In millions)

Year Ended June 30, 2024

Balance, beginning of period	\$ 53,813
Deferral of revenue	148,701
Recognition of unearned revenue	(142,330)
Balance, end of period	<u>\$ 60,184</u>

Revenue allocated to remaining performance obligations, which includes unearned revenue and amounts that will be invoiced and recognized as revenue in future periods, was \$275 billion as of June 30, 2024, of which \$269 billion is related to the commercial portion of revenue. We expect to recognize approximately 45% of our total company remaining performance obligation revenue over the next 12 months and the remainder thereafter.

NOTE 14 — LEASES

We have operating and finance leases for datacenters, corporate offices, research and development facilities, Microsoft Experience Centers, and certain equipment. Our leases have remaining lease terms of less than 1 year to 17 years, some of which include options to extend the leases for up to 5 years, and some of which include options to terminate the leases within 1 year.

The components of lease expense were as follows:

(In millions)

Year Ended June 30,	2024	2023	2022
Operating lease cost	<u>\$ 3,555</u>	<u>\$ 2,875</u>	<u>\$ 2,461</u>
Finance lease cost:			
Amortization of right-of-use assets	\$ 1,800	\$ 1,352	\$ 980
Interest on lease liabilities	734	501	429
Total finance lease cost	<u>\$ 2,534</u>	<u>\$ 1,853</u>	<u>\$ 1,409</u>

Supplemental cash flow information related to leases was as follows:

(In millions)

Year Ended June 30,	2024	2023	2022
Cash paid for amounts included in the measurement of lease liabilities:			
Operating cash flows from operating leases	\$ 3,550	\$ 2,706	\$ 2,368
Operating cash flows from finance leases	734	501	429
Financing cash flows from finance leases	1,286	1,056	896
Right-of-use assets obtained in exchange for lease obligations:			
Operating leases	6,703	3,514	5,268
Finance leases	11,633	3,128	4,234

Supplemental balance sheet information related to leases was as follows:

(In millions, except lease term and discount rate)

June 30,	2024	2023
Operating Leases		
Operating lease right-of-use assets	\$ 18,961	\$ 14,346
Other current liabilities	\$ 3,580	\$ 2,409
Operating lease liabilities	15,497	12,728
Total operating lease liabilities	\$ 19,077	\$ 15,137
Finance Leases		
Property and equipment, at cost	\$ 32,248	\$ 20,538
Accumulated depreciation	(6,386)	(4,647)
Property and equipment, net	\$ 25,862	\$ 15,891
Other current liabilities	\$ 2,349	\$ 1,197
Other long-term liabilities	24,796	15,870
Total finance lease liabilities	\$ 27,145	\$ 17,067
Weighted Average Remaining Lease Term		
Operating leases	7 years	8 years
Finance leases	12 years	11 years
Weighted Average Discount Rate		
Operating leases	3.3%	2.9%
Finance leases	3.9%	3.4%

The following table outlines maturities of our lease liabilities as of June 30, 2024:

(In millions)

Year Ending June 30,	Operating Leases	Finance Leases
2025	\$ 4,124	\$ 3,311
2026	3,549	3,021
2027	2,981	3,037
2028	2,405	3,026
2029	1,924	2,638
Thereafter	6,587	19,116
Total lease payments	21,570	34,149
Less imputed interest	(2,493)	(7,004)
Total	\$ 19,077	\$ 27,145

As of June 30, 2024, we had additional operating and finance leases, primarily for datacenters, that had not yet commenced of \$8.6 billion and \$108.4 billion, respectively. These operating and finance leases will commence between fiscal year 2025 and fiscal year 2030 with lease terms of 1 year to 20 years.

NOTE 15 — CONTINGENCIES

U.S. Cell Phone Litigation

Microsoft Mobile Oy, a subsidiary of Microsoft, along with other handset manufacturers and network operators, is a defendant in 45 lawsuits filed in the Superior Court for the District of Columbia by individual plaintiffs who allege that radio emissions from cellular handsets caused their brain tumors and other adverse health effects. We assumed responsibility for these claims in our agreement to acquire Nokia's Devices and Services business and have been substituted for the Nokia defendants. Twelve of these cases were consolidated for certain pre-trial proceedings; the remaining cases are stayed. In a separate 2009 decision, the Court of Appeals for the District of Columbia held that adverse health effect claims arising from the use of cellular handsets that operate within the U.S. Federal Communications Commission radio frequency emission guidelines ("FCC Guidelines") are pre-empted by federal law. The plaintiffs allege that their handsets either operated outside the FCC Guidelines or were manufactured before the FCC Guidelines went into effect. The lawsuits also allege an industry-wide conspiracy to manipulate the science and testing around emission guidelines.

In 2013, the defendants in the consolidated cases moved to exclude the plaintiffs' expert evidence of general causation on the basis of flawed scientific methodologies. In 2014, the trial court granted in part and denied in part the defendants' motion to exclude the plaintiffs' general causation experts. The defendants filed an interlocutory appeal to the District of Columbia Court of Appeals challenging the standard for evaluating expert scientific evidence. In October 2016, the Court of Appeals issued its decision adopting the standard advocated by the defendants and remanding the cases to the trial court for further proceedings under that standard. The plaintiffs have filed supplemental expert evidence, portions of which were stricken by the court. A hearing on general causation took place in September of 2022. In April of 2023, the court granted defendants' motion to strike the testimony of plaintiffs' experts that cell phones cause brain cancer and entered an order excluding all of plaintiffs' experts from testifying. The parties agreed to a stipulated dismissal of the consolidated cases to allow plaintiffs to appeal the expert testimony order. Plaintiffs appealed the court's order in August of 2023, and the parties have filed their briefs on the appeal. A hearing on the status of the stayed cases occurred in December of 2023. In July 2024, the court entered summary judgment in nine of the stayed cases on the grounds that plaintiffs had agreed to be bound by the general causation outcome in the consolidated cases.

Irish Data Protection Commission Matter

In 2018, the Irish Data Protection Commission ("IDPC") began investigating a complaint against LinkedIn as to whether LinkedIn's targeted advertising practices violated the recently implemented European Union General Data Protection Regulation ("GDPR"). Microsoft cooperated throughout the period of inquiry. In April 2023, the IDPC provided LinkedIn with a non-public preliminary draft decision alleging GDPR violations and proposing a fine. In July 2024, the IDPC provided LinkedIn with a revised non-public draft decision. There is no set timeline for the IDPC to issue a final decision, at which time Microsoft will consider its options to appeal.

Other Contingencies

We also are subject to a variety of other claims and suits that arise from time to time in the ordinary course of our business. Although management currently believes that resolving claims against us, individually or in aggregate, will not have a material adverse impact in our consolidated financial statements, these matters are subject to inherent uncertainties and management's view of these matters may change in the future.

As of June 30, 2024, we accrued aggregate legal liabilities of \$641 million. While we intend to defend these matters vigorously, adverse outcomes that we estimate could reach approximately \$600 million in aggregate beyond recorded amounts are reasonably possible. Were unfavorable final outcomes to occur, there exists the possibility of a material adverse impact in our consolidated financial statements for the period in which the effects become reasonably estimable.

NOTE 16 — STOCKHOLDERS' EQUITY

Shares Outstanding

Shares of common stock outstanding were as follows:

(In millions)

Year Ended June 30,	2024	2023	2022
Balance, beginning of year	7,432	7,464	7,519
Issued	34	37	40
Repurchased	(32)	(69)	(95)
Balance, end of year	<u>7,434</u>	<u>7,432</u>	<u>7,464</u>

Share Repurchases

On September 18, 2019, our Board of Directors approved a share repurchase program authorizing up to \$40.0 billion in share repurchases. This share repurchase program commenced in February 2020 and was completed in November 2021.

On September 14, 2021, our Board of Directors approved a share repurchase program authorizing up to \$60.0 billion in share repurchases. This share repurchase program commenced in November 2021, following completion of the program approved on September 18, 2019, has no expiration date, and may be terminated at any time. As of June 30, 2024, \$10.3 billion remained of this \$60.0 billion share repurchase program.

We repurchased the following shares of common stock under the share repurchase programs:

(In millions)	Shares	Amount	Shares	Amount	Shares	Amount
Year Ended June 30,	2024		2023		2022	
First Quarter	11	\$ 3,560	17	\$ 4,600	21	\$ 6,200
Second Quarter	7	2,800	20	4,600	20	6,233
Third Quarter	7	2,800	18	4,600	26	7,800
Fourth Quarter	7	2,800	14	4,600	28	7,800
Total	<u>32</u>	<u>\$ 11,960</u>	<u>69</u>	<u>\$ 18,400</u>	<u>95</u>	<u>\$ 28,033</u>

All repurchases were made using cash resources. Shares repurchased during the first quarter of fiscal year 2022 were under the share repurchase program approved on September 18, 2019. Shares repurchased during the second quarter of fiscal year 2022 were under the share repurchase programs approved on September 18, 2019 and September 14, 2021. All other shares repurchased were under the share repurchase program approved on September 14, 2021. The above table excludes shares repurchased to settle employee tax withholding related to the vesting of stock awards of \$5.3 billion, \$3.8 billion, and \$4.7 billion for fiscal years 2024, 2023, and 2022, respectively.

Dividends

Our Board of Directors declared the following dividends:

Declaration Date	Record Date	Payment Date	Dividend Per Share	Amount
Fiscal Year 2024				(In millions)
September 19, 2023	November 16, 2023	December 14, 2023	\$ 0.75	\$ 5,574
November 28, 2023	February 15, 2024	March 14, 2024	0.75	5,573
March 12, 2024	May 16, 2024	June 13, 2024	0.75	5,574
June 12, 2024	August 15, 2024	September 12, 2024	0.75	5,575
Total			<u>\$ 3.00</u>	<u>\$ 22,296</u>
Fiscal Year 2023				
September 20, 2022	November 17, 2022	December 8, 2022	\$ 0.68	\$ 5,066
November 29, 2022	February 16, 2023	March 9, 2023	0.68	5,059
March 14, 2023	May 18, 2023	June 8, 2023	0.68	5,054
June 13, 2023	August 17, 2023	September 14, 2023	0.68	5,051
Total			<u>\$ 2.72</u>	<u>\$ 20,230</u>

The dividend declared on June 12, 2024 was included in other current liabilities as of June 30, 2024.

NOTE 17 — ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The following table summarizes the changes in accumulated other comprehensive income (loss) by component:

(In millions)	2024	2023	2022
Year Ended June 30,

Balance, beginning of period	\$ (2,734)	\$ (2,527)	\$ (1,381)
Translation adjustments and other, net of tax of \$0, \$0, and \$0	(228)	(207)	(1,146)
Balance, end of period	\$ (2,962)	\$ (2,734)	\$ (2,527)
Accumulated other comprehensive loss, end of period	<u>\$ (5,590)</u>	<u>\$ (6,343)</u>	<u>\$ (4,678)</u>

NOTE 18 — EMPLOYEE STOCK AND SAVINGS PLANS

We grant stock-based compensation to employees and directors. Awards that expire or are canceled without delivery of shares generally become available for issuance under the plans. We issue new shares of Microsoft common stock to satisfy vesting of awards granted under our stock plans. We also have an ESPP for all eligible employees.

Stock-based compensation expense and related income tax benefits were as follows:

(In millions)

Year Ended June 30,	2024	2023	2022
Stock-based compensation expense	\$ 10,734	\$ 9,611	\$ 7,502
Income tax benefits related to stock-based compensation	1,826	1,651	1,293

Stock Plans

Stock awards entitle the holder to receive shares of Microsoft common stock as the award vests. Stock awards generally vest over a service period of four years or five years.

Executive Incentive Plan

Under the Executive Incentive Plan, the Compensation Committee approves stock awards to executive officers and certain senior executives. RSUs generally vest ratably over a service period of four years. PSUs generally vest over a performance period of three years. The number of shares the PSU holder receives is based on the extent to which the corresponding performance goals have been achieved.

Activity for All Stock Plans

The fair value of stock awards was estimated on the date of grant using the following assumptions:

Year ended June 30,	2024	2023	2022
Dividends per share (quarterly amounts)	\$ 0.68 – 0.75	\$ 0.62 – 0.68	\$ 0.56 – 0.62
Interest rates	3.8% – 5.6%	2.0% – 5.4%	0.03% – 3.6%

During fiscal year 2024, the following activity occurred under our stock plans:

	Shares	Weighted Average Grant-Date Fair Value
	(In millions)	
Stock Awards		
Nonvested balance, beginning of year	96 \$	250.37
Granted ^(a)	41	339.46
Vested	(42)	246.71
Forfeited	(7)	270.59
Nonvested balance, end of year	88 \$	292.28

(a) Includes 1 million of PSUs granted at target and performance adjustments above target levels for each of the fiscal years 2024, 2023, and 2022.

As of June 30, 2024, total unrecognized compensation costs related to stock awards were \$20.3 billion. These costs are expected to be recognized over a weighted average period of three years. The weighted average grant-date fair value of stock awards granted was \$339.46, \$252.59, and \$291.22 for fiscal years 2024, 2023, and 2022, respectively. The fair value of stock awards vested was \$16.0 billion, \$11.9 billion, and \$14.1 billion, for fiscal years 2024, 2023, and 2022, respectively. As of June 30, 2024, an aggregate of 129 million shares were authorized for future grant under our stock plans.

Employee Stock Purchase Plan

We have an ESPP for all eligible employees. Shares of our common stock may be purchased by employees at three-month intervals at 90% of the fair market value on the last trading day of each three-month period. Employees may purchase shares having a value not exceeding 15% of their gross compensation during an offering period.

Employees purchased the following shares during the periods presented:

(Shares in millions)

Year Ended June 30,	2024	2023	2022
Shares purchased	6	7	7
Average price per share	\$ 339.46	\$ 245.59	\$ 259.55

As of June 30, 2024, 68 million shares of our common stock were reserved for future issuance through the ESPP.

Savings Plans

We have savings plans in the U.S. that qualify under Section 401(k) of the Internal Revenue Code, and a number of savings plans in international locations. Eligible U.S. employees may contribute a portion of their salary into the savings plans, subject to certain limitations. We match a portion of each dollar a participant contributes into the plans. Employer-funded retirement benefits for all plans were \$1.7 billion, \$1.6 billion, and \$1.4 billion in fiscal years 2024, 2023, and 2022, respectively, and were expensed as contributed.

NOTE 19 — SEGMENT INFORMATION AND GEOGRAPHIC DATA

In its operation of the business, management, including our chief operating decision maker, who is also our Chief Executive Officer, reviews certain financial information, including segmented internal profit and loss statements prepared on a basis not consistent with GAAP. During the periods presented, we reported our financial performance based on the following segments: Productivity and Business Processes, Intelligent Cloud, and More Personal Computing.

Our reportable segments are described below.

Productivity and Business Processes

Our Productivity and Business Processes segment consists of products and services in our portfolio of productivity, communication, and information services, spanning a variety of devices and platforms. This segment primarily comprises:

- Office Commercial (Office 365 subscriptions, the Office 365 portion of Microsoft 365 Commercial subscriptions, and Office licensed on-premises), comprising Office, Exchange, SharePoint, Microsoft Teams, Office 365 Security and Compliance, Microsoft Viva, and Copilot for Microsoft 365.
- Office Consumer, including Microsoft 365 Consumer and Copilot Pro subscriptions, Office licensed on-premises, and other Office services.
- LinkedIn, including Talent Solutions, Marketing Solutions, Premium Subscriptions, and Sales Solutions.
- Dynamics business solutions, including Dynamics 365, comprising a set of intelligent, cloud-based applications across ERP, CRM, Power Apps, and Power Automate; and on-premises ERP and CRM applications.

Intelligent Cloud

Our Intelligent Cloud segment consists of our public, private, and hybrid server products and cloud services that can power modern business and developers. This segment primarily comprises:

- Server products and cloud services, including Azure and other cloud services; SQL Server, Windows Server, Visual Studio, System Center, and related Client Access Licenses (“CALs”); and Nuance and GitHub.
- Enterprise and partner services, including Enterprise Support Services, Industry Solutions, Nuance professional services, Microsoft Partner Network, and Learning Experience.

More Personal Computing

Our More Personal Computing segment consists of products and services that put customers at the center of the experience with our technology. This segment primarily comprises:

- Windows, including Windows OEM licensing and other non-volume licensing of the Windows operating system; Windows Commercial, comprising volume licensing of the Windows operating system, Windows cloud services, and other Windows commercial offerings; patent licensing; and Windows Internet of Things.
- Devices, including Surface, HoloLens, and PC accessories.
- Gaming, including Xbox hardware and Xbox content and services, comprising first-party content (such as Activision Blizzard) and third-party content, including games and in-game content; Xbox Game Pass and other subscriptions; Xbox Cloud Gaming; advertising; third-party disc royalties; and other cloud services.
- Search and news advertising, comprising Bing (including Copilot), Microsoft News, Microsoft Edge, and third-party affiliates.

Revenue and costs are generally directly attributed to our segments. However, due to the integrated structure of our business, certain revenue recognized and costs incurred by one segment may benefit other segments. Revenue from certain contracts is allocated among the segments based on the relative value of the underlying products and services, which can include allocation based on actual prices charged, prices when sold separately, or estimated costs plus a profit margin. Cost of revenue is allocated in certain cases based on a relative revenue methodology. Operating expenses that are allocated primarily include those relating to marketing of products and services from which multiple segments benefit and are generally allocated based on relative gross margin.

In addition, certain costs are incurred at a corporate level and allocated to our segments. These allocated costs generally include legal, including settlements and fines, information technology, human resources, finance, excise taxes, field selling, shared facilities services, customer service and support, and severance incurred as part of a corporate program. Each allocation is measured differently based on the specific facts and circumstances of the costs being allocated and is generally based on relative gross margin or relative headcount.

Segment revenue and operating income were as follows during the periods presented:

(In millions)

Year Ended June 30,	2024	2023	2022
Revenue			
Productivity and Business Processes	\$ 77,728	\$ 69,274	\$ 63,364
Intelligent Cloud	105,362	87,907	74,965
More Personal Computing	62,032	54,734	59,941
Total	<u>\$ 245,122</u>	<u>\$ 211,915</u>	<u>\$ 198,270</u>
Operating Income			
Productivity and Business Processes	\$ 40,540	\$ 34,189	\$ 29,690
Intelligent Cloud	49,584	37,884	33,203
More Personal Computing	19,309	16,450	20,490
Total	<u>\$ 109,433</u>	<u>\$ 88,523</u>	<u>\$ 83,383</u>

No sales to an individual customer or country other than the United States accounted for more than 10% of revenue for fiscal years 2024, 2023, or 2022. Revenue, classified by the major geographic areas in which our customers were located, was as follows:

(In millions)

Year Ended June 30,	2024	2023	2022
United States ^(a)	\$ 124,704	\$ 106,744	\$ 100,218
Other countries	120,418	105,171	98,052
Total	<u>\$ 245,122</u>	<u>\$ 211,915</u>	<u>\$ 198,270</u>

(a) Includes billings to OEMs and certain multinational organizations because of the nature of these businesses and the impracticability of determining the geographic source of the revenue.

Revenue, classified by significant product and service offerings, was as follows:

(In millions)

Year Ended June 30,	2024	2023	2022
Server products and cloud services	\$ 97,726	\$ 79,970	\$ 67,350
Office products and cloud services	54,875	48,848	44,970
Windows	23,244	21,507	24,732
Gaming	21,503	15,466	16,230
LinkedIn	16,372	14,989	13,631
Search and news advertising	12,576	12,158	11,526
Enterprise and partner services	7,594	7,900	7,605
Dynamics products and cloud services	6,481	5,437	4,687
Devices	4,706	5,521	7,306
Other	45	119	233
Total	<u>\$ 245,122</u>	<u>\$ 211,915</u>	<u>\$ 198,270</u>

We have recast certain prior period amounts to conform to the way we internally manage and monitor our business.

Our Microsoft Cloud revenue, which includes Azure and other cloud services, Office 365 Commercial, the commercial portion of LinkedIn, Dynamics 365, and other commercial cloud properties, was \$137.4 billion, \$111.6 billion, and \$91.4 billion in fiscal years 2024, 2023, and 2022, respectively. These amounts are primarily included in Server products and cloud services, Office products and cloud services, LinkedIn, and Dynamics products and cloud services in the table above.

Assets are not allocated to segments for internal reporting presentations. A portion of amortization and depreciation is included with various other costs in an overhead allocation to each segment. It is impracticable for us to separately identify the amount of amortization and depreciation by segment that is included in the measure of segment profit or loss.

Long-lived assets, excluding financial instruments and tax assets, classified by the location of the controlling statutory company and with countries over 10% of the total shown separately, were as follows:

(In millions)

June 30,	2024	2023	2022
United States	\$ 186,106	\$ 114,380	\$ 106,430
Other countries	115,263	72,859	59,938
Total	<u>\$ 301,369</u>	<u>\$ 187,239</u>	<u>\$ 166,368</u>
